Chapter 1

Processing And Updates

Drinks Sales Analysis Processing And Updates

This section covers those procedures concerned with the regular updates within Drinks Sales Analysis, including periodic updates which produce regular reports, and the updating of the Sales History Database.

Daily Update

1/DAP

The Daily Update function selects and prints reports which have been specified for production at the end of the day.

Daily Update Window

Select the Daily Update option.

You use this option to submit the batch job which selects and prints reports specified as day-end reports.

```
DAP                HW - Handy Wholesalers Ltd      User GALBRAIJ      24/01/96
                                                           15:54:25

Option 1
Search _____

          Daily Update
          The option you have chosen submits a
          batch job to perform the requested task.

          Press F8 to confirm this submission or
          press F3/F12 to return without submission.

          F3=Exit      F8=Confirm submit      F12=Previous

F3=Exit  F4=Prompt  F6=Messages  F12=Previous  F16=Change company  F18=Prints
21-11    SF        MK          KS          IM          II  KENB20A  PED170S1
```

Note: Any reports which have not actually been created, but have been specified as day end reports will be created at this time.

Note: No file updates take place.

Select **F8=Confirm Submit** to submit the batch job which selects and prints day-end reports.

Weekly Update

2/DAP

The Weekly Update function is used to select and print reports which have been specified for production at the end of the week. The function also increments the week number held on the company profile.

Weekly Update Window

Select the Weekly Update option.

You use this option to submit the batch job which selects and prints reports specified as week-end reports.

Option 2

Search _____

Weekly Update

The option you have chosen submits a batch job to perform the requested task.

Press F8 to confirm this submission or press F3/F12 to return without submission.

F3=Exit F8=Confirm submit F12=Previous

F3=Exit	F4=Prompt	F6=Messages	F12=Previous	F16=Change company	F18=Prints
21-11	SF	MW	KS	IM	II KENB20A PET087S2

Select **F8=Confirm Submit** to submit the batch job which will select and print week-end reports.

Period Update

3/DAP

The Period Update function is used to select and print reports which have been specified for production at the end of the period.

The function also increments the period number on the Company Profile, and if the job is run at the end of the last period in the year, the period number is re-set to `1' and the year incremented.

Period Update Window

Select the Period End Update option.

You use this option to submit the batch job which selects and prints reports specified as period-end reports.

Sales Analysis Processing and Updates Menu

- 1. Daily update
- 2. Weekly update
- 3. Period end update
- 4. Year end update
- 5. Refresh sales history
- 6. Sales history update

Yearly Update

The option you have chosen submits a batch job to perform the requested task.

Press F8 to confirm this submission or press F3/F12 to return without submission.

F3=Exit F8=Confirm submit F12=Previous

90. Signoff

Option 4

Search _____

F3=Exit	F4=Prompt	F6=Messages	F12=Previous	F16=Change company	F18=Prints
21-11	SP	MW	KS	IM	II KENB20A PET087S2

Note: Year End Update should be run before the last period-end as the period-end increments the year, and re-sets the period to 1 on the company profile.

Select **F8=Confirm Submit** to submit the batch job which will select and print year-end reports.

Refresh Sales History

5/DAP

The Refresh Sales History function gives you the ability to selectively change the analysis attributes within the Sales History Database in the event of them changing in Drinks Inventory Management or Drinks Sales Order Processing. For example, if sales regions are re-organised, the refresh may be used to allow analysis of sales as though the regions had always had their new arrangement.

Refresh Sales History Selection Screen

Select the Refresh Sales History option.

The Refresh Sales History Selection Screen enables you to select the year and period for the history.

Fields:

Refresh From Date

Enter the year and period from which you wish to refresh sales history.

Select Refresh Fields

Enter a '1' against each field in the list which you wish to refresh.

Select **F8=Update** to submit the batch job to refresh Sales History.

Sales History Update

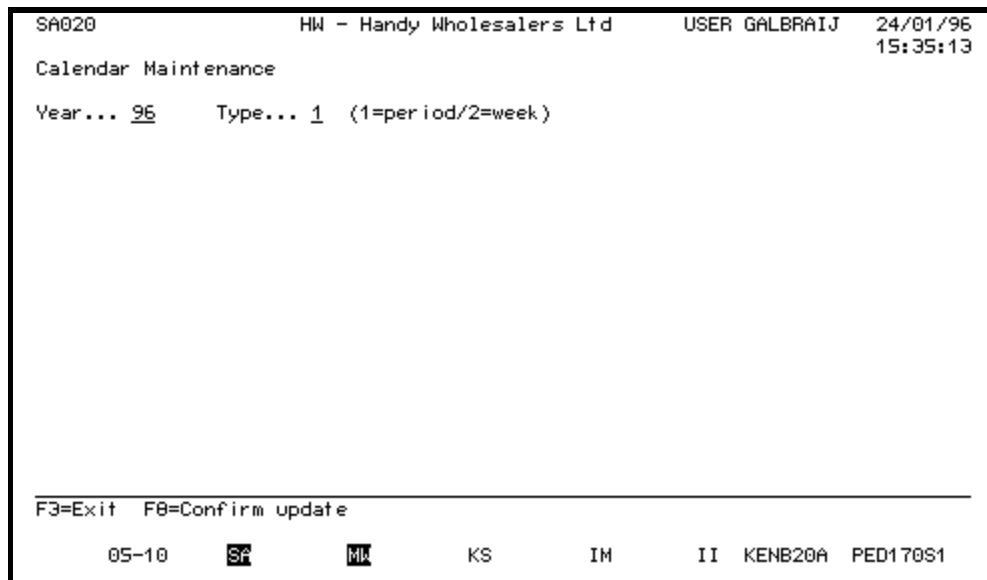

6/DAP

This procedure enables you to update the Sales History Database with sales information from invoices. You can ensure that the required calendar(s) exist.

Sales History Update Calendar Maintenance Selection Screen

 Select the Sales History Update option.

The Sales History Update Calendar Maintenance Selection Screen is displayed, this enables you to select the year and type.

```
SA020          HW - Handy Wholesalers Ltd    USER GALBRAIJ    24/01/96
                                      15:35:13

F3=Exit  F8=Confirm update

05-10  SF  MW  KS  IM  II  KENB20A  PED170S1
```

Fields:

Year

Enter the year for the calendar.

Type

Enter the calendar type. Valid entries are:

1 - for a period calendar.

2 - for a weekly calendar.

 Press **Enter** to display the appropriate calendar.
The Sales History Update Calendar Maintenance Detail Screen is displayed.

 Press **F8=Confirm Update** to save change and
bypass the Sales History Update Calendar Maintenance Detail Screen.

Sales History Update Calendar Maintenance Detail Screen

 After pressing **Enter** on the Sales History Update Calendar Maintenance Selection Screen the system will display the second calendar maintenance screen, when an appropriate calendar has been entered on the first calendar maintenance screen.

The periods and end-dates for the year are displayed. If there are no end-dates, they must be entered in order for the Sales History update to function correctly. See the section on Calendar Maintenance for more details.

 **Tip:** The batch job updates the Sales History Database with the details from invoices in the Drinks Sales Order Processing module, which have been printed since the last update run.

Note: This procedure may take some time to complete, depending on the volume of data to be processed.

 Press **F12=Previous** to return to the previous screen.

 Press **F8=Update** to update, if period end-dates have been changed or added. This will return you to the Sales History Update Calendar Maintenance Selection Screen.

 Press **F8=Update** again to submit the Sales History Update batch job.
