## Chapter 3

### Enquiries

# UK Bonded Inventory Management Enquiries

The enquiry facilities provided by this module are as follows:

- Rotation.
- Consolidated Audit.
- Item Variant.

The Rotation enquiry allows access to all Rotations for an item. Static Rotation details and current stock position are displayed. Movement history is also available with the option to print the full details.

The Consolidated Audit enquiry accesses a history file of key reference data amendments. Extensive search facilities are provided so that any particular type of amendment can be identified quickly - Date and User name providing a typical example.

The Item Variant enquiry provides for an easy look-up of Item Variants for a selected item.

# Rotations Enquiry

## 21/DBP

This enquiry facility enables you to view Rotation header details and the associated movement history.

The enquiry uses four screens:

- Rotation/Item Selection Screen.
- Rotation Summary Screen.
- Rotation Details Screen.
- Rotation Movement History Screen.

## Rotation / Item Selection Screen

Select the Rotation option.

This screen enables the selection of an item or Rotation.

|                                                                 |                            |               |                     |

### Fields:

#### Bond Number

Enter the Bond number for the item/Rotation.

#### Item Number

- Enter an Item Number without a Rotation to give a list of all Rotations for the Item.
- Enter an Item Number with a Rotation to display or print details for that Rotation.

#### Rotation Number

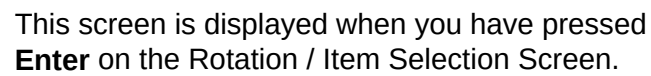

Enter the Rotation number for enquiry or print. Leave blank if enquiry is by item.

Press **Enter** to view the Rotation Summary Screen (if no Rotation was entered) or the Rotation Details Screen (if a Rotation Number was entered).

Press **F24=Print Rotation Details** to print the Rotation details and list of Movements for a single Rotation.

*Note: The quantity columns are split into cases and bottles.*

**Fields:**

## Sel

Press **Enter**.

## Rotation Details Screen (Option 1)

This screen is displayed when you enter a '1' next to a rotation on the Rotation Summary Screen and displays the selected Rotation details.

*Note: These details are for information only, and cannot be amended.*

### Functions:

#### F15

Display movement history for the selected Rotation

# Rotation Movement History Screen (F15)

This screen is displayed when you press **F15=Mvt History** on the Rotation Details Screen and lists movement history for the selected Rotation. Movements are displayed in date sequence, latest first.

*Note: These details are for information only and cannot be amended.*

*Note: If there are more details than will fit on one screen, a small plus (+) sign will be displayed in the bottom right-hand corner. Use **Page Down** to display the following page, and **Page Up** to display the previous page.*

# Consolidated Audit Files Enquiry

## 22/DBP

The Consolidated Audit file enquiry enables the display of reference data amendments, such as tax rate changes.

The enquiry procedure involves the use of two screens:

- Consolidated Audit Selection Screen.
- Consolidated Audit Details Screen.

## Consolidated Audit Selection Screen

Select the Consolidated Audit Files option.

This screen displayed enables the selection of audit details. The selection process works on the basis of the less selective you are, the more details are displayed. Selection entries are optional, as detailed below.

|                                               |                            |               |                           |

### Fields:

#### Bond Number

Bond number. Blank for all Bonds. The maintenance of tax details relate to all Bonds and therefore Bond number should be left blank.

#### Stockroom

Stockroom code. Leave blank if enquiring on static reference data, such as tax maintenance, or for all Stockrooms.

#### User

User ID as known to the system. Leave blank for 'all'.

#### Workstation

Workstation name known to the system, or blank for all workstations.

#### Date / Time

Date (DDMMYY) and time (HHMMSS) to view data from the date / time specified. Leave blank for 'all'.

#### Key

Each audit record contains a standard text key. E.g.: STOCK WRITE OFF MADE. To view stock write-offs only, key \*STOCK WRITE OFF MADE\*. Note

that the text must be enclosed in asterisks. Entering \*STOCK\* only will result in a display of all audit records containing the word 'STOCK'. Leave blank for 'all'.

### Text

Each audit record contains explanatory text. E.g.: 'Rotn 91BB000083'. To search for and view text specific to your enquiry, key \*Rotn 91BB000083\*. Note that search arguments must be enclosed in asterisks and be in the same upper/lower case as recorded on file. Leave blank to view all.

### Printed 1/0

Audit records posted to the file are flagged as 'Not printed'. When the Consolidated Audit report is printed, the audit records are flagged as 'Printed'. This field allows you to choose which to print, enter either:

0 - Not printed. This is the default.

1 - Printed.

*Note: If there are no details on file which match your selection, a screen shows 'NO RECORDS FOUND'.*

Having entered your selection criteria, press **Enter** to display the Consolidated Audit Details Screen.

# Consolidated Audit Details Screen

This screen is displayed when you have entered valid details into the Consolidated Audit Selection Screen, and illustrates the enquiry display.

*Note: Each audit record contains two reference numbers. The first of each pair tells you the Consolidated Audit Report number. The second number is the number of the audit report produced at the time of the amendment.*

*If the first number is zero, this means that the Consolidated Audit report has yet to be printed for the latest changes. If the second number is zero, this means that a numbered report at the time of the change does not apply.*

## Fields:

### S

Stockroom code.

### B

Bond number (printed below Stockroom on the screen).

### User

User name as known to the system.

### Workstation

Workstation name known to the system.

### Key

Each audit record contains a standard text key (as detailed above).

### **Date / Time**

Each Audit Record contains the date (dd/mm/yy) and time (hhmmss) from which to view data. Leave blank for 'all'.

### **Report**

Reference Numbers of the Audit Reports.

Press **F3=Exit**.

## Item Variant Enquiry

### 23/DBP

The Item Variant enquiry enables the enquiry of all Variants for a selected item.

## Item Variant Selection Screen

 Select the Item Variant option.

The selection screen displayed enables the selection of an item number.

### **Fields:**

#### **Item Number**

Enter a valid item number.

 Typing a valid item number and pressing **Enter** displays the Item Variant Details Screen.

# Item Variant Details Screen

 This screen is displayed when you have entered a valid Item Number into the Item Variant Selection Screen and shows details about all Variants for the selected item.

 *Note: These details are for display only and cannot be amended.*
