Chapter 4 Reports

UK Bonded Inventory Management Reports

This module retains an independent log of all stock movements and transactions relevant to a Duty Free stockroom. A log of key reference data changes is also retained.

The transaction log is used to report stock movements and tax liability values. The reference data log is used to provide an audit trail of file maintenance activity.

The reporting facilities described in this section are divided into two main areas.

- End of Day Report.
- Report Re-prints.

The necessary end of day transaction reports are all contained in one job submission process. These include listings of goods received, despatched, duty liability and end of period returns.

Optional end of day reports may be requested to provide listings of key reference data changes and a control report of outstanding W81s.

The majority of the end of day reports are serially numbered. Re-prints for these numbered reports are easily obtained by quoting the original end of day report reference.

Duty Run Report

1... **1/DBR** **2...**

The Duty Run process provides a single batch job for the production of end of day movement and duty liability reports since the last Duty Run.

The following reports are produced automatically each time you submit the Duty Run:

- Adjustments / Breakages.
- Customer Duty and Duty Free Analysis.
- Movement Audit.
- Report of Despatches.
- Report of Receipts.

The following reports are produced once for each calendar period, on the Period End Date, or in the first Duty Run after this date:

- EX46 (Beer Duty) Returns Report.
 - This report is produced on the dates set up on the EPD Calendar.
- C88A Customs Duty.
 - This report is produced on the dates set up on the Customs Calendar.
- The W1, W2 and W3 end of period Stock Returns.
 - These reports are produced on the dates set up on the Stock Return Calendar.

The following report can be produced automatically each time you submit the Duty Run, or twice monthly on the Period End date and the Interim Report Date, or in the first Duty Run after these dates.

- W5D Excise Return, W5D Schedule, W5D Summary.
 - This report is produced daily or on the dates set up on the Excise Calendar.

Duty Run Selection Screen

Select the Duty Run option.

The submission and runtime of the Duty Run must coincide with the dates defined in the Customs and Excise calendars. For example, the period end Stock Returns are printed when the submission date is the same as the period end date defined in the Stock Return calendar.

Note: You should run the Duty Run process when there is no stock movement activity on the system.

You use this screen to submit end of day Duty Run reports for a specified Bond Number.

F3=Exit F8=Submit Duty Run			
8-22 SA MW KS CL IM DM II STUD140 KB ST0672S1			

Fields:

Bond Number

Bond number for the Duty Run.

Full C88A Required?

1 - Yes. Print the C88A Backup report. Where C88As are scheduled, this option should be set to 1 on the agreed dates.

0 - No. C88A Backup report is not required.

W5D To Be Printed?

1 - Yes, Print the W5D reports in this duty run.

0 - No, Do not print the W5D reports in this duty run.

This field is only displayed after you have entered information in the Bond Number and Full C88A Required? fields and pressed **Enter**.

Tip: The value of this field is set automatically by the system but can be manually overridden here.

Note: The system checks the current date against the Period End Date and Interim Report Date for the current period. These dates are held on the Excise Calendar. If the current date matches either of these dates, or if the report has not been run within the current period, the system sets this field to 1.

Date Last Reported

The date, in the form DD/MM/YY, on which the W5D reports were last printed.

This field is only displayed after you have entered information in the Bond Number and Full C88A Required? fields and pressed **Enter**.

W5D Report Date

The date of the W5D report. This defaults to the current date.

This field is only displayed after you have entered information in the Bond Number and Full C88A Required? fields and pressed **Enter**.

Press **Enter** to validate the details, then **F8=Submit Duty Run** to submit the request.

Overdue Document Report

2/DBR

This report lists W81 despatch documents which have not been logged back as returned.

Overdue Document Report Selection Screen

Select the Overdue Document Report option.

The screen enables the selection of the report using the Bond Number and Document Type.

BW630P	HW - Handy Wholesalers Ltd	USER GALBRAIJ	11/03/96 14:46:54

08-29	SP	MK	KS IM II KENB20A PED129S1

Fields:

Bond Number

Bond number for the report.

Document Type

Type '81' for W81.

Date

Date defaults to current date. Amend date as required to list overdue W81s up to and including the date specified.

Press **Enter** to validate, then **F8=Submit** to submit the report.

Consolidated Audit Report

3/DBR

20/DBR

The Consolidated Audit report lists key reference data amendments. The report can be requested in two ways. Either, as an end of day report, or as a re-print. In end of day mode, the report is assigned a unique report number.

Consolidated Audit Report Selection Screen

Select the Consolidated Audit Report option, or
to re-print Select the same option.

A screen is displayed requesting you to press **F8=Submit** to submit the report.

BW048S	HW - Handy Wholesalers Ltd	USER GALBRAIJ	11/03/96

Fields:

Report Number

Enter the original report number, for the re-print.

Press **Enter** then **F8=Submit** to submit the
report.

Stock Proving Report

4/DBR

The stock proving report lists the total movements quantities, literage and alcohol in the period compared with the previous period for which the report was run. The report can be run in either summary or detail mode and lists the difference by goods category within for a return number within the entered period.

Request Summary / Detail Stock Proving Report Screen

Select the Stock Proving Report option.

Fields:

Bond Number

Enter the bond number for which the report is to be produced.

Period No

Enter the period number in the format YYPP for which the report is to be produced.

Summary or Detail

Enter one of the following:

S - A summary report is produced.

D - A detail report is produced.

Press **Enter** to send the report to print.

Delivery Exceptions Report

This option submits a batch job to the system to create a report of any Delivery Exceptions.

Delivery Exceptions occur where adjustments are made, in 'Confirm Delivery', to items in a Bonded Stockroom (not direct to Bond). These types of adjustments cannot be made directly to a bond, so the movements are prevented and delivery exceptions recorded instead.

Type in a valid Bond Number and press **Enter**, then press **F8=Submit** to confirm submission of the report.

Cleared Delivery Exceptions Report

6/DBR

This option submits a batch job to the system to create a report of any Cleared Delivery Exceptions.

Type in a valid Bond Number and press **Enter**
followed by **F8=Submit** to confirm.

Adjustments / Breakages Report

11/DBR

This report is automatically printed when the Duty Run is selected, or can be selected for a re-print. The process involves the printing of two reports. The first lists breakages not subject to duty. The second lists other adjustments.

Adjustments / Breakages Report Selection Screen

Select the Adjustments / Breakages Report option.

This screen enables the selection of a re-print.

Press **Enter** to submit the report.

Movement Audit Report

13/DBR

This report is automatically printed when the Duty Run is selected, or can be selected for a re-print. The process involves the printing of all transactions relating to the selected Bond.

Movement Audit Report Selection Screen

Select the Movement Audit Report option.

This screen enables the selection of a re-print, using Bond Number and Duty Run report number. The screen display is of exactly the same format as the Adjustments/Breakages report.

Fields:

Bond Number

Bond number for the report.

Duty Run No.

Enter the original Duty Run report number.

Press **Enter** to submit the report.

Report of Despatches

This report is automatically printed when the Duty Run is selected, or can be selected for re-print. The process involves printing all despatches relating to the selected Bond.

Despatches Report Selection Screen

Select the Report of Despatches option.

This screen enables the selection of a re-print, using the Bond Number and Duty Run Report Number (as with the other reports).

The required details must be entered.

Fields:

Bond Number

Bond number for the report.

Duty Run No.

Enter the original Duty Run report number.

Press **Enter** to submit the report.

Report of Receipts

15/DBR

This report is automatically printed when the Duty Run is selected, or can be selected for re-printing. The process involves printing two reports. The first lists summary information. The second lists details of each receipt.

Receipts Report Selection Screen

Select the Report of Receipts option.

This screen enables the selection of a re-print, using the Bond Number and the Duty Run Number (as with the other reports).

The required details must be entered.

Fields:

Bond Number

Bond number for the report.

Duty Run No.

Enter the original Duty Run report number.

Press **Enter** to submit the report.

W1, W2 and W3 Stock Returns

 **16/DBR**

 **17/DBR**

 **18/DBR**

These reports are automatically printed when the Duty Run is selected and the date is a period end according to the Stock Return calendar. The reports summarise receipts, supplies and opening and closing stocks. They can also be selected as re-prints.

W1, W2, W3 Stock Returns Selection Screen

 Select the report you require option.

This screen illustrates the selection for re-printing the W1 report. The re-printing of the W2 and W3 reports are exactly the same.

Excise period number in the form YYPP.

Document No.

W5D sequence number for the period selected.

C88A Backup Report

This report is automatically printed when the Duty Run is selected and the 'Full C88A Required' option is set to '1'. The same report is also printed automatically when a consignment is placed in Free Circulation.

The report provides the basis for completing C88A Customs documents for the payment of Customs duty.

Note: There is no re-print facility for this report.
