Chapter 5 Reports

Drinks DRP Reports

As part of the general policy of the applications, before a report is run, selection and sequencing parameters are available.

In general, standard reports are printed on standard listing paper with 132 print positions and 6 lines to the inch. All reports are printed with the procedure or program number in the top left, and the page number and date of the run in the top right of the report.

The following reports are available for Drinks DRP:

- Print Run Details.
- Schedule Report.
- Planner Action Report.
- Valuation Report.
- Distribution Item Master.

Note: The schedule and valuation reports both have 198 print positions.

Print Run Details Report

1... 1/DDR **2...**

This report outputs the control details of the last processing run for the selected centre or network. The output consists of run parameters and period details.

Frequency

For each network, and for each centre, included automatically in a processing run. Also, on request as a reprint facility.

Print Run Details Report Selection Screen

Select the Print Run Details option.

The Selection Screen is displayed which allows you to select the Centre or Network you want to include on the report.

```

10-33    SP      MK      KS      IM      II  PLYM400A PED171S1
```

Fields:

Centre

Print details of last DRP run, for the centre specified.

OR

Network

Print details of last DRP run, for the network specified.

Press **F8=Print Run Details Report** to send the report to print.

Schedule Report

2/DDR

This produces a time-phased plan, i.e. schedule, for controlling item stock levels within the selected Centre or DC.

It is a printed version of the details which can be viewed, per item, in the Schedule Enquiries.

This report distinguishes between demand from:

- DRP, via Sales Transfer Orders. Sales Transfer Orders are designated DO.
- Production, via. Production Transfer Orders. Production Transfer Orders are designated TO.

Refer to DC Schedule Enquiry and Centre Schedule Enquiry for detailed content description.

Frequency

As required.

Print Positions

198 (15 characters per inch).

Schedule Report Centre / DC Selection Screen

Select the Schedule Report option.

The initial screen enables selection of the Centre or DC for which the schedule report is to be produced.

Centre or DC

Enter a valid DRP centre or DC for which the scheduled report is to be produced.

Press **Enter** to display the Schedule Report
Details Selection Screen.

Schedule Report Details Selection Screen

This screen is displayed when you have entered a valid Centre or DC on the Schedule Report Selection Screen.

It enables selection of a range of plan dates and the level of detail required for the report.

Request Schedule Report			
Centre..... 01 Manchester centre			
Date last planned from: 25/10/95 to: 25/10/95			
Print Supply/Demand detail... 1 (0=No 1=Yes)			
Print Items with no details.. 0 (0=No 1=Yes)			
F3=Exit F8=Submit report F12=Previous F14=Additional selection			
12-37	SP	MK	KS IM II PLYM400A PED171S1

Fields:

Centre or DC

Displays the code and description of the selected centre or DC (from the previous screen).

Date Last Planned Range

Specify a range of plan dates to be included in the report. Only items last planned within this range of dates will be shown on the report.

The from and to dates default to the date of the last planning run for the selected centre or DC.

Print Supply/Demand detail

Specify whether to include details of the supply and demand orders on the report.

1 - To include such detail. (The default).

0 - To exclude this level of detail from the report, i.e. display totals only

Print Items with no details

Specify whether to include the codes and description of items with no supply/demand details on the report. The default of 0 is to exclude such items. Enter 1 to include these items on the report.

Functions:

F14

Additional Selection

If you want to select additional parameters, press
F14=Additional Selection, otherwise press
F8=Submit Report to send the report to print.

Schedule Report Additional Selection Screen (F14)

This screen is accessed by selecting **F14=Additional Selection** from the Schedule Report Details Selection Screen.

It allows additional selection and sequencing specifications for the report.

14-43 S² MK KS IM II PLYM400A PED171S1

Fields:

Item

Optionally enter a range of items to be selected for the report.

Planner

Optionally enter a range of DRP planners. Only those items defined to DRP planners within this range will be selected.

Item Group

Optionally enter a range of inventory minor item groups. Only those items defined to inventory minor items groups within this range will be selected.

Value/Usage Class

Optionally enter a range of inventory value/usage classes. Only those items with value/usage classes within this range will be selected.

Preferred Supplier

Optionally enter a range of preferred suppliers. Only those items with preferred suppliers within this range will be selected. Preferred suppliers are defined in Item/Stockroom Maintenance in Inventory Management.

Sequencing

Select the hierarchy of sequencing in which the selection criteria are to appear on the report. Up to three sequencing criteria may be selected. For example, if planner is to be selected as a sequencing criteria:

- 1 - For planner to be the first criterion for report sequencing.
- 2 - For planner to be the second criterion for report sequencing.
- 3 - For planner to be the third criterion for report sequencing.

Leave blank in order not to sequence by planner.

If no sequencing is selected for any of the five selection criteria, the report is sequenced by item.

Press **F12=Previous** to return to the Details Selection Screen, then press **F8=Submit Report** to send the report to print.

Planner Action Report

3/DDR

This option is used to output suggested actions, resulting from processing runs for the selected centre or DC.

These actions include:

- Reorder suggestions.
- Order amendments - quantities and/or due dates.
- Order cancellations.

Note: 'Orders' are Purchase Orders for Items supplied externally to the company, Distribution Orders for Items supplied by Centres within the company and Production Transfer Orders from System 21 Production applications.

This report distinguishes between demand from:

- DRP, via Sales Transfer Orders. Sales Transfer Orders are designated DO.
- Production, via. Production Transfer Orders. Production Transfer Orders are designated TO.

F3=Exit F4=Prompt F8=Submit report			
05-37 SP MK KS IM II PLYM400A PED171S1			

Fields:

Centre or DC

Enter a valid DRP Centre or DC for which the valuation report is to be produced.

Supply Source

Specify the source of items to appear on the report. Enter as follows:

- 1 - Include only those items not supplied by a DRP supply centre. These are known as locally purchased items.
- 2 - Include only those items supplied from a DRP supply centre to the selected centre or DC.
- 3 - Include both centrally supplied and locally purchased items.

Level of Detail Required

Specify the level of detail to appear on the report. Enter as follows:

- 1 - Display only a summary costing in which the totals for each included item are summed for the centre/DC.
- 2 - Display individual costing details for each included item.

Costing Method

Specify the costing basis for the report. Enter as follows:

1 - Use the standard cost of the item at the Inventory stockroom assigned to the item at the selected centre or DC.

2 - Use the latest (current) cost of the item at the inventory stockroom assigned to the item at the selected centre or DC.

Factor

Select the unit basis for the costing values to appear on the report.

1 - Display costing in units of one thousand.

2 - Display costing in units of ten thousand.

3 - Display costing in units of one hundred thousand.

4 - Display costing in units of one million.

Press **F8=Submit Report** to send the report to print.

Distribution Item Master Report
