Chapter 7

Enquiries

Drinks Inventory Management Enquiries

Enquiries in the Drinks Inventory Management module are designed to allow a layered approach to the review of an item. This includes:

- Descriptions and codes
- Balances at stockrooms
- Movements
- History
- Expense Accounts

All enquiries can be accessed from either the Enquiries menu or, for short counts, from the Stock Counting menu.

Kit List Item Where Used Enquiry

1...
2...

1/DIE

This procedure enables the display of the parent items of the selected kit component.

Kit List Item Where Used Enquiry Selection Screen

Select the Kit List Item Where Used option.

The system will display the Selection Screen.

```

-	01	Cases	2 .00
F3=Exit F12=Previous			
06-25	82	MW	KS IM II KENB20A PET007S2

Fields:

Description Code

The description associated with the description code.

The following fields have specific meanings for different description types, for example for @STD the limit field defines the column (1 - 7) which shows the container total for that type.

Limit

This is the parameter limit.

VAT

The VAT code.

PV

This indicates if the description rate is:

P - percentage based.

V - value based.

Rate

This is used by certain description types for such things as extra charges, or duty rates. The nature of the rate is indicated by the percentage / value flag.

Press **F3=Exit**.

Item / Stockroom Enquiry

3/DIE

This is a multi-function enquiry intended to display all the data from the item master and the stockroom balance. Entry can be at the level of static data for the item, a summary of the company stock position for the item, or the individual stockroom balances. From a stockroom, both batch and FIFO cost records can be displayed, where this level of detail is supported.

Press either **Enter** or **F13=Stock Summary**
dependant on what records you want to view.

Item / Stockroom Enquiry Item Details Screen 1

This screen is displayed when you have entered an item reference and pressed **Enter** from the Item / Stockroom Enquiry Selection Screen.

It displays the static descriptive information for the item.

All the balances displayed are in the stock / issue units of the item/stockroom. The value of the stock is at the method selected for the item and this is indicated in the right hand column.

The item and stockroom codes, with their associated descriptions are displayed at the top of the screen.

The screen is then split into three columns:

Fields:

Column 1:

Stock In Stock Units

This contains all the stock balances for this item / stockroom combination, calculated quantities relating to reorder policies and the units of measure used for issuing and purchasing this item.

The number of items in this stockroom is displayed as well as the quantity of these already allocated to orders, currently on order from suppliers and available to be issued. Any goods frozen in this stockroom, currently 'in transit' to this stockroom or reserved also appear in this section. Immediately below these balances, either the calculated or entered stock quantities, associated with reorder policies are displayed:

ROP

The reorder point for this item stockroom combination.

Maximum

The maximum stock level that should ever be held in this stockroom. This quantity is used in the reorder policy 'Up To Max'.

EOQ

The Economic Order Quantity for this item / stockroom combination.

Reorder

The quantity to be reordered.

Reorder Factor

The number of lead times worth of average usage that should be reordered.

Note: Reorder and Reorder factor are only used if Reorder Policy 2 - ROP/ROQ has been specified.

Column 2:

Usage

This indicates the amount of the item that has been issued from this stockroom over specified periods.

Firstly on a weekly, monthly and annual basis and then the average usage, as calculated by the module, below which is the lead time, indicating the time between placing an order for a particular item and receiving it at the stockroom.

Details from the stock weeks matrix are displayed immediately below the usage data. The minimum weeks of stock held on the company profile for this item / stockroom

combination may be viewed along with the current system assigned ABC Classification, again from the stock weeks matrix. If an ABC classification override has been specified on the item master file then this is the last field in this section.

Dates

This section displays the dates of the most recent modifications to the item / stockroom profile, most recent receipt and issue of this item from this stockroom. If stock counting has been initiated, then last stock check date for this item / stockroom combination will be displayed here, otherwise the field will be set to 00/00/00.

Column 3:

Costing Data

This section of the screen contains the most recent item cost according to the method of costing displayed next to the heading 'Cost at'. If there is a base list price for the item this is displayed under the costing method.

Maximum Stock Weeks

The maximum weeks of stock held on the company profile for this item / stockroom combination, may be viewed.

Suppliers

This final section displays the preferred supplier for this item and the stockroom 'bin' where this item is located. Both of these are specified on the item master file.

Functions:

F13

Lot Details. This option enables a variety of traces and history enquiries to be performed on lot controlled items.

F19

FIFO Cost Details. (Only available if Item is FIFO).

F21

Potency. This option displays the Potency Enquiry for the specified item.

There will be a message in the lower right hand corner of the screen indicating whether a stocktake is currently in progress.

Press **Enter** to sequentially display details of this item for the next stockroom. (If there are no more stockrooms to display, **Enter** will return to item select.)

Item / Stockroom Enquiry Lot Details Screen (F13)

This screen is reached by pressing **F13=Lot Details** from the Item / Stockroom Enquiry Stockroom Details Screen.

It displays the current status of the lots for the selected item/stockroom. A list of lots is displayed showing lot balance information. You can view costs of each lot by entering a '1' beside it.

The cost of the items either transferred from a stockroom or received from a supplier are displayed for the selected lot.

Press **F3=Exit**.

Item / Stockroom Enquiry FIFO Costs Screen (F19)

If the item being chosen is lot, batch or serial controlled, this screen will be available for consultation, using the **F19=FIFO Costs** key from the Item / Stockroom Enquiry Stockroom Details Screen, even if the item is not FIFO costed.

The details displayed will be the received costs, calculated according to the costing method specified on the second item maintenance screen. This screen displays the opening and current position of the un-consumed FIFO batches for an item/stockroom. Both date and time are displayed. The list of batches is displayed.

This screen indicates both the quantity received from another stockroom or supplier, and the balance of this batch remaining in the stockroom, with the associated cost per unit.

To adjust FIFO records use the FIFO Costs option.

Enter a two character stockroom code where the item is located.

 Press **Enter** to display the Expense Account Enquiry by Item/Stockroom Details Screen.

Expense Account Enquiry by Item/Stockroom Details Screen

This screen is displayed when you have entered a valid item and stockroom onto the Expense Account Enquiry by Item / Stockroom Selection Screen.

The Item, Stockroom and the associated Descriptions are shown at the top of the screen. The Expense Account description is shown together with the information held on field - the figures are in Stock Units.

Expense Account Enquiry by Expense Account

1... **22/DIE**
2...

The expense balances can be displayed according to the account code. The only variation between the Expense account enquiry and the item/stockroom enquiry is that the account code substitutes the item code.

Expense Account Enquiry by Expense Account Selection Screen

Select the Enquiry by Expense Account option.

This screen is used to enquire on Expense Account balances.
