Chapter 3

Inquiries

Drinks US Bonded Inventory Management Inquiries

The inquiry facilities provided by this application are as follows:

- Rotation.
- Consolidated Audit.
- Item Variant.

The Rotation inquiry allows access to all Rotations for an item. Static Rotation details and current stock position are displayed. Movement history is also available with the option to print the full details.

The Consolidated Audit inquiry accesses a history file of key reference data amendments. Extensive search facilities are provided so that any particular type of amendment can be identified quickly - Date and User name providing a typical example.

The Item Variant inquiry provides for an easy look-up of Item Variants for a selected item.

17-16	SE	MM	KS IM II PLYM400A PED171S1

Fields:

Bond Number

Bond number. Blank for all Bonds. The maintenance of tax details relate to all Bonds and therefore Bond number should be left blank.

Stockroom

Stockroom code. Leave blank if inquiring on static reference data, such as tax maintenance, or for all Stockrooms.

User

User ID as known to the system. Leave blank for 'all'.

Workstation

Workstation name known to the system, or blank for all workstations.

Date / Time

Date (MMDDYY) and time (HHMMSS) to view data from the date/time specified. Leave blank for 'all'.

Key

Each audit record contains a standard text key. E.g.: STOCK WRITE OFF MADE. To view stock write-offs only, key *STOCK WRITE OFF MADE*. Note that the text must be enclosed in asterisks. Entering *STOCK* only will result in a display of all audit records containing the word 'STOCK'. Leave blank for 'all'.

Text

Each audit record contains explanatory text. E.g.: 'Rotn 91BB000083'. To search for and view text specific to your inquiry, key *Rotn 91BB000083*. Note that search arguments must be enclosed in asterisks and be in the same upper/lower case as recorded on file. Leave blank to view all.

Printed 1/0

Audit records posted to the file are flagged as 'Not printed'. When the Consolidated Audit report is printed, the audit records are flagged as 'Printed'.

0 - 'Not printed' (default).

1 - 'Printed'.

Note: If there are no details on file which match your selection, a screen shows 'NO RECORDS FOUND'.

Having entered your selection criteria, press **Enter** to display the Consolidated Audit Details Screen.

Consolidated Audit Details Screen

This screen is displayed when you have entered valid selection criteria into the Consolidated Audit Selection Screen and pressed **Enter**.

Note: Each audit record contains two reference numbers. The first of each pair tells you the Consolidated Audit Report number. The second number is the number of the audit report produced at the time of the amendment.

If the first number is zero, this means that the Consolidated Audit report has yet to be printed for the latest changes. If the second number is zero, this means that a numbered report at the time of the change does not apply.
