Chapter 7

Retrospective Discounts

Retrospective Discounts Overview

The Retrospective Discount menu, accessed from the Drinks Sales Order Processing Main menu, provides function to set up and process Retrospective Discount schemes, giving Customers or Groups of Customers rebates against agreed quantities or values invoiced within a specified date range.

Retrospective Scheme Header

1... **1/DOD** **2...**

This function enables you to:

- create new retrospective discount schemes
- maintain retrospective discount schemes.

Retrospective Scheme Header Selection Screen

Select the Retrospective Scheme Header option.

The initial screen is displayed to enable a scheme number to be selected.

0E382	HW - Handy Wholesalers Ltd	User GALBRAIJ	3/08/95 10:28:16
Retrospective file maintenance			
Retrospective discount scheme number...?.			
F3=Exit F4=Prompt			

Fields:

Retrospective Discount Scheme Number

Enter either a new scheme number, or an existing scheme number to carry out maintenance.

Press **Enter** to display the Retrospective Scheme Header Maintenance Screen.

Retrospective Scheme Header Maintenance Screen

This screen is displayed after selecting a scheme number from the Retrospective Scheme Selection Screen, and is used for entry and maintenance of scheme header information.

08382	HW - Handy Wholesalers Ltd	User GALBRAIJ	3/08/95 10:33:17

Retrospective file maintenance

Scheme number..... JK9HD
Description..... July Sales Adjustments
Scheme level..... 2 (1=Customer, 2=Customer group)

Starting date..... 1/07/95
Ending date..... 31/07/95

Start period.....
Scheme duration.....

Price type code.....?.
Payment Currency.....?.
Target type.....
Payment type.....
Loan number..... Bank Account.....?.
G/L expense code.....?.
G/L accrual code.....?.

F3=Exit F4=Prompt F12=Previous

Fields:

Scheme Number

The scheme number is displayed.

Description

Up to 34 alphanumeric characters can be entered.

Scheme Level

Enter the scheme level to define the required Customer Level.

1 - Customer Level.

2 - Customer Group Level.

Starting Date

Start effectivity date for the scheme.

Ending Date

End effectivity date for the scheme.

Start Period

Start period for the scheme in the format YYPP (YY must not be less than the current year, and PP must be in the range 1-13).

Scheme Duration

Duration in months (in the range 1-99).

Price Type Code

A Price type code for the Retrospective Discount scheme (Price function - 6).

Note: The price type customer module level should be the same as the scheme level.

Payment Currency

Enter a valid currency code.

Target Type

Enter a target type. The target is always a quantity. Even if a value is used at price type detail level, it is checked as a quantity.

0 - Up to and over target.

1 - Over target.

Payment Type

Enter a payment type.

0 - Manual cheque.

1 - Accounts Receivable Credit.

2 - Load Ledger Credit.

Loan Number

Memo field only.

Bank Account

Enter a valid General Ledger Cash Management Bank Account number.

G/L Expense Code

Enter a valid General Ledger Expense Account code.

G/L Accrual Code

Enter a valid General Ledger Accrual Account code.

Press **Enter** to save the details.

Retrospective Scheme Detail

2/DOD

Note: The details displayed after entering this number are dependant on whether the scheme is for a Customer Level or customer Group Level.

Warning: Customer groups in schemes must have a single nominated payee for their award.

Retrospective Scheme Detail Selection Screen

Select the Retrospective Scheme Detail option.

The initial screen enables selection of a scheme number.

```

Fields:

Customer Number

Customer account number.

Sequence

Delivery Sequence number.

Account Payee

Account payee details for the scheme.

Address Post Code

Address details and Post code.

Press **Enter** to save the details.

Retrospective Scheme Copy

1...
2... 3/DOD

 Select the Retrospective Scheme Copy option.

The screen is used to enter old and new scheme numbers.

0E397	HW - Handy Wholesalers Ltd	User GALBRAIJ	3/08/95
			11:03:56
Retrospective file copy			
Existing Scheme Number.... JK9HD		New Scheme Number... JK9W	
F3=Exit			

Fields:

Existing Scheme Number

Enter an existing scheme number from which to copy.

New Scheme Number

Enter the new scheme number to which to copy.

 Press **Enter** to save the details.

Retrospective Processing Day End

20/DOD

Select the Day End option.

On taking the option, after confirmation, a batch job is run. Eligibility for inclusion is determined by the following:

- The invoice must be in the date range of the scheme.
- Components are ignored.
- Customer and Item combination must satisfy the selection criteria.

For each valid item invoiced, the period to date total against the scheme is incremented in terms of quantity and value invoiced (in base currency).

Retrospective Processing Period End

1...
2...

21/DOD

Select the Period End option.

The option is used to generate customer payments.

0E384P	HM - Handy Wholesalers Ltd	User GALBRAIU	3/08/95 11:16:49
Retrospective Period End Processing			
Period to be Processed..... 9502			
F3=Exit F8=Submit			

Fields:

Period To Be Processed

Enter the period number in the format YYPP.

Press **F8=Submit** to submit the batch job. A batch job is submitted to perform the processing - if the entered period is equal to the scheme end of period, or the scheme is a loan ledger, then payments are made - otherwise accruals are made.

Payments Amend

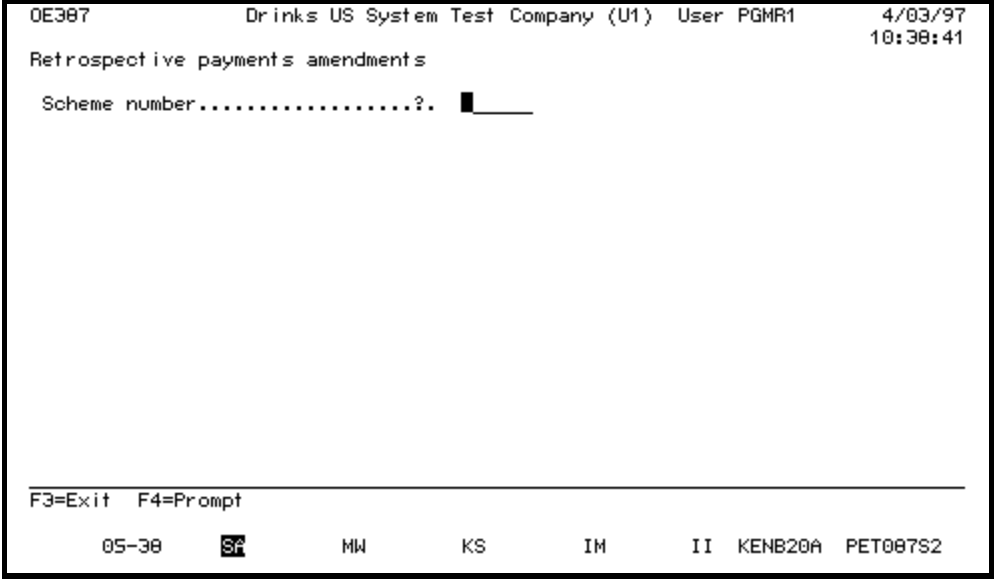

22/DOD

This function enables you to amend a retrospective processing payments scheme.

Retrospective Processing Payments Amend Selection Screen

 Select the Payments Amend option.

The screen is used to enter the scheme number for amendment.

```
DE387          Drinks US System Test Company (U1)  User PGMR1      4/03/97
Retrospective payments amendments                               10:38:41

Enter a new attain quantity for the item selected.

Attain Rate

Enter a new attain rate for the item selected.

Press **F8=Update** to save the changes to the file.

Retrospective Processing Cash Book Payments

23/DOD

Select the Cash Book Payments option.

On taking the option, after confirmation, a batch job is run, which mimics the production of a manual cheque from the Cash Management system.

Note: The physical cheque is still produced by the Cash Management system.
