Chapter 3

Enquiries

Drinks Purchase Management Enquiries

Enquiries can be grouped into one of three categories:

- Order details.
- Sources of supply.
- Financial.

This section covers the options which control these enquiry functions.

Orders by Item Enquiry

1/DPE

This option is used to establish the current status of an item with regard to outstanding orders.

Orders By Item Enquiry Selection Screen

Select the By Item option.

The first screen enables you to select the item on which to base the enquiry.

PM112	Distribution V3 -> V3 Financials	USER GBJBAMV1	8/12/95 13:01:42
Orders By Item			
Item.....?.. _____			
F3=Exit F4=Prompt

Fields:

Select

1 - To display details of the whole order for this line. See the Whole Order Enquiry in Drinks Inventory.

2 - To display the standard internal order line text window. See Order By Order using Internal Order Text in this section.

Item

The current item may be overwritten or prompted on, to select a new item for enquiry.

Class

Item class for the item. These classes are set up in System 21 Drinks Inventory Management Descriptions Maintenance under major type 'PCLS'.

UOM

The issue unit of measure for the item.

Standard Cost

The standard cost of the item per unit.

The above details are retrieved from the Drinks Inventory Management Item Master File.

For each order line displayed for the item, the following details are given.

Note: The lines are displayed in order date sequence.

Supplier

The supplier for this order.

Order No

Purchase order number.

Supplier Ref

The supplier's reference number or code for this order.

Order Date

The date that the order was placed.

Sr

The stockroom to which the goods are to be delivered.

Order Quantity

The original order quantity.

Promised Date

The date for which delivery of the goods was promised.

O/S Quantity

The outstanding quantity (yet to be delivered).

Flag

The Confirmation Flag value as entered during Order Entry/Amendment.

Typ

The type of schedule, as entered on the Order Line Header:

S - Scheduled Order.

B - Blanket Order.

Blank - Non-Scheduled Order.

Currency Order

Currency is only displayed if the supplier's currency is different to your base currency.

Note: All quantities are shown in the item issue unit of measure.

Enter a '1' into the selection field and press **Enter** to display the Orders By Item Enquiry Detail Screen.

Orders By Item Enquiry Detail Screen (Option 1)

 This screen is displayed when you have entered a '1' in the Selection field on the Orders By Item Enquiry Header Screen.

03-13 S2 MK KS IM II KENB20A PED171S1					

Fields:

Supplier

The current supplier may be changed, or prompted on, to select a new supplier for enquiry.

All/Outstanding

Selection from the previous screen, although this may be altered here, if required.

Phone

The telephone number and name of the supplier, which is set up in Accounts Payable Maintenance, Names & Addresses option.

Supplier Currency

The currency of the supplier. Currency is only displayed if the supplier's currency is different to your base currency.

For each order, the following details are displayed.

Asterisk (*)

Denotes that internal order text exists for the order.

Select

Enter one of the following:

- 1 - To display the full details of the order. From here you can look at the receiving address and external order text, and you can maintain internal order text.
- 2 - To display the internal order text, if any, for the order (this is displayed in the standard text entry window).

Order No

The Purchase Order Number.

Adr Cde

Despatch address code for the order.

Order Date

The order placement date.

Supplier Ref

The supplier's reference number or code for this order.

Ship Code

The code describing how the goods on this order are to be shipped. This is assigned in Order Entry / Amendment.

Cls

The order classification assigned to this order.

- Order classes 1 - 4 are for stocked items or non-stocked items or services which require tracking via an item code.
- Order class 5, 7 & 8 is for non-stocked items which do not require tracking via an item code.
- Order class 6 is for service items which do not require tracking via an item code.

Typ

The schedule type for this order, as entered on the Order Line Header:

S - Scheduled Order

B - Blanket Order

Blank - non-scheduled.

Order Currency

If the order currency is different from the supplier currency, it is displayed.

Job No, Dept

Job Number and Department are displayed only if they were specified in Order Entry/Amendment.

Enter a '1' into the selection field and press
Enter to display the Orders By Supplier Enquiry

Details Screen.

Orders By Supplier Enquiry Details Screen

This screen is displayed when you have entered a '1' into the selection field on the Orders By Supplier Enquiry Header Screen.

Order by Order Enquiry

3/DPE

This option is used to display all details for a specific order number. This may be accessed by entry of an order from this procedure, or from the other order enquiries, e.g. orders by item, orders by supplier, etc.

All order lines are displayed, with the ability to view text, status or receipts for each order line. Also, any internal or external order text can be displayed.

Order Selection Screen

 Select the By Order option.

This screen enables you to select the order to be enquired upon.

Fields:

Order

A new order may be selected from this screen by overtyping the order number.

Supplier

The supplier code and name for this order.

Date

The order placement date.

Phone

The supplier's telephone number.

Currency

The currency of the order.

P. Officer

The code and name of the purchasing officer responsible for this order.

Ref

The supplier's order reference or acknowledgement number for this order.

Class

The description of the class of this order.

Stockroom

The Code of the Stockroom to which the order relates.

Delivery Instruction Set Code

This identifies the set of delivery instructions assigned to this order.

For each line (or each scheduled delivery for a schedule type order), the following details are displayed:

Tip: Use the Roll keys to page through all lines on the order.

Select

In the selection column against any line, enter:

- 1 - To display the standard order line text window.
- 2 - To display the order line status screen.
- 3 - To display the line receipts screen.
- 4 - To display the reservations enquiry.
- 5 - To display landed costs.
- 7 - To display the GL codes. This is only available if GL extension codes are requested on the Company Profile.

Line

The order line number.

Item

The item code or the supplier's item reference for non-stock orders.

Cost Code

The cost code for a non-stock order item is assigned on entering the order line. For a stocked item this is assigned in System 21 Drinks Inventory Management.

Sr

The stockroom that the order has gone to or will go to.

Qty. Ordered

The original order quantity.

Qty. Received

The quantity received to date.

Qty. Outstanding

The quantity outstanding.

Qty. Invoiced

The quantity matched to date with invoices.

UOM

The code defining the unit of measure in which the above quantities are expressed.

Price

The price per unit, in the order currency, for this item.

Due Date

The date this line or schedule quantity is due to be received.

Functions:

F13

Display the receiving address screen.

F21

Display the internal order text screen.

F22

Display the external order text screen.

Press **Enter** to continue.

The item issue unit of measure code and its description.

Qty Rec'd To Stock

Of the total quantity received to date, the quantity booked, or transferred, into stores.

O/S Qty

The first line shows the total outstanding quantity in the above UoM. Subsequent lines detail how this quantity is to be delivered, by quantity and date (if entered earlier).

Promise Date

The date the outstanding quantity is promised for delivery. In the case of returns, this date will be the date of return, i.e. returns become immediately due for re-receipt.

Qty - Goods Inward

The quantity so far received at Goods Inwards.

Note: This quantity is considered to be on order by Drinks Inventory Management.

Qty At Inspection

The quantity so far received at Inspection.

Note: This quantity is considered to be on order by Drinks Inventory Management.

Quantity Scrapped

Quantity so far returned and/or scrapped.

Functions:

F21

Line text. Display the order line text window.

Order by Order Enquiry Line Receipts Screen (Option 3)

This screen is accessed by entering a '3' against any order line which has a Quantity Received figure. It enables you to display all receipts entered against the selected order line.

Fields:

Order

The selected order number.

Ln

The number of the selected order line.

Supplier

The code and name of the supplier against whom the order was raised.

Item

The item ordered on the selected order line, or the supplier's reference for non-stock orders.

UOM

The code and description of the item issue unit of measure of the ordered item.

Stockroom

The receiving stockroom specified for the line.

Description

The description of the ordered item.

For each receipt made against the selected order line, the following details are displayed:

Receipt Date

The date of receipt into the location (Loc) detailed on the order line.

Advice Note

The supplier's advice note number as entered in goods receiving.

GRN No

The Goods Receipt Note number assigned to this receipt.

Quantity/Unit

The receipt quantity, expressed in the item purchase unit of measure.

Loc

The location into which the receipt was booked:

G - Goods Inwards.

I - Inspection.

S - Stores.

Scrap Code

In the event of a return or scrap, the code defining the reason for return is displayed.

Batch Lot No

(If applicable). The internal reference or batch/lot/serial number assigned to this receipt in goods receiving.

Order Quantity

The original order quantity.

For each selected line, the following details are displayed:

Order No

The selected order number.

Line No

The selected order line number.

Blanket Seq.

Selected blanket sequence number (for schedule or blanket orders only).

Date

The actual or expected receipt date.

Code

The landed cost code and description.

Batch/Lot

The batch/lot number identified when the stock was received (if applicable).

Landed Cost

The total landed cost value for the selected order line.

Order by Order Enquiry Extended Code Screen (Option 7)

This window, accessed by entering a '7' against an order line on the Order by Order Enquiry Order Summary Screen, enables you to view the applicable Account Levels and descriptions, as entered on the Order by Order Enquiry Order Header.

Tip: If there are more lines of data than will fit onto one page, use the **Page Down** (+) and **Page Up** (-) keys to scroll through the following and preceding pages as available.

Fields:

Supplier

The supplier with whom the order was placed.

Order No

The number assigned to this order.

Order Date

The order placement date.

Order Quantity

The original order quantity for this order line.

Sr

The stockroom to receive this order line.

Promise Date

The date this delivery is expected.

O/S Quantity

The quantity yet to be delivered.

Typ

The type of order:

S - Schedule order

B - Blanket order

Blank - Line order, i.e. non-scheduled.

Flg

The confirmation flag value as set in Order Entry/Amendment.

Supplier Ref

The supplier's order reference or acknowledgement number for the order line.

The following details may be entered:

Cost Code

The General Ledger Cost Code (as entered on the Order Header details, and detailed under Order Summary Extended Code).

The field shows the Code selected on the previous screen, but is available for alteration if you wish to view outstanding order details for another Cost Code.

Select (*)

In the selection column against an order, enter one of the following:

1 - to display the Order Summary for the selected order (refer to 'Enquiry by Order' earlier in this product information for details).

2 - to display the Internal Order Text (if any) for the selected order. If you wish to change this, go to the Order Amend option (refer to 'Order by Order Enquiry' in this section for details).

Enter a number in the selection column to display further details, or press **F3=Exit**.

Order by Job Number Enquiry

1...
2...

5/DPE

This option is used to establish the current position with regard to order lines placed with a selected job number. A user-defined Job Number (for example, to identify a particular 'project' or promotion) must have been entered on the Order Summary screen (earlier).

This option can be used only for outstanding released orders, i.e. released but not yet received.

Order by Job Number Enquiry Selection Screen

Select the By Job Number option.

The Selection Screen is displayed and requests the job number to be enquired upon.

```

Item - Where Bought ?

Item?.. DRP01-69/2A

Enquiry Type 1 1=Summary,2=Detail

Quantity Required.. 100.000

F3=Exit F4=Prompt

05-23 MW KS IM II KENB20A PED171S1

Fields:

Item

Enter a valid item code.

Enquiry Type

Enter the enquiry type as follows:

- 1 - For a list of suppliers for this item to be displayed. This is the default.
- 2 - For a full receipts history for all suppliers of this item. The quantity field must remain blank for this option.

Quantity

This field is only valid on selecting option '1' (summary details). It can be left blank, but if entered it will be used in finding the cheapest price from any item supplier price structures which exist for this item.

For example, a supplier may give significant bulk discounts, and may be identified as the cheapest supplier if a large quantity is to be ordered. However, ordering from this supplier may not be so cost effective if smaller quantities were required. So if you put a lower quantity in this field, another supplier may be identified as the cheapest.

Note: Price structures are set up in the item supplier option.

Press **Enter** to display the Where Bought
Enquiry Suppliers Screen.

Where Bought Enquiry Suppliers Screen

Note: A bright '' is displayed against the supplier(s) with the cheapest price. In calculating the cheapest supplier, both discount and any currency are taken into account.*

A '' is displayed under a supplier if item supplier text exists.*

Fields:

Item

The selected item and its description. Enter a new item or prompt to search and select an item.

Enquiry Type

1 for Summary or '2' for Detail. The current selection may be overwritten, to re-display this summary screen for a different item, or to display the receipts history detail screen (the quantity field must be blank for this).

Item Class

The class code and description to which the selected item is assigned. This is set up in Item Maintenance in Inventory Management. (Information Only).

Alternative Item

Another item which may be used as an alternative to the selected item. (Information Only).

Purchasing UOM

The code defining the unit default in which the item is purchased. (Information Only).

Quantity

The required quantity from the previous screen. The quantity required may be overwritten to request prices for a different quantity.

For each supplier of the item, the following details are shown:

Supplier

The supplier code.

Select

In the selection column against an item, enter:

- 1 - To display item supplier text -this is set up in Item Supplier Maintenance.
- 2 - To display the receipts history screen for this supplier only (see next section).

Name

The name of supplier.

Supplier Item Ref

The supplier's reference for the selected item.

Current Price

The current price for the selected item from this supplier. This is per purchasing unit of measure and expressed in the supplier's currency.

CC

The currency code of the supplier is displayed if it is different from your company's base currency.

Discount

The percentage discount given by this supplier for the selected item.

Terms

Payment method from the purchase supplier details file.

Last Change

The date of the last price change.

Lead Time

The lead time in days for the selected item when ordered from this supplier.

Functions:

F18

Display item purchasing text (only if purchasing text exists for the selected item).

Enter a selection into the selection field, or press
F3=Exit.

Where Bought Enquiry Receipts History Screen (Option 2)

This screen is displayed if you enter a '2' (detail) in the selection field of the Where Bought Enquiry Suppliers Screen.

It enables you to display a list of all receipts of a selected item, or all receipts of a selected item from a selected supplier, depending on previous selections.

Fields:

Ref

The selected reference number.

Type

The selected document type.

Date

The date invoice matching took place.

On Log

This legend is displayed if the item is still on the System 21 Accounts Payable log. This would occur prior to carrying out a log to ledger transfer.

Supplier

The name of the supplier on the selected document.

Currency

The currency of the order, if the order was carried out in a currency other than the currency of your company.

Ord. Val

The order value of the goods matched.

Adj

The value of additional dissections made at invoice matching time. This is displayed if such dissections were made.

VAT

The VAT value from the System 21 Accounts Payable log.

Gross

The total invoice value from the System 21 Accounts Payable log.

For each receipt matched to the selected document, the following is displayed:

Select

Enter '1' in the selection column against any receipt to display the order line text screen (refer to 'Order by Order Enquiry' earlier in this section for more details).

GRN No

The Goods Receipt number assigned to this receipt.

Receipt Date

The date of the receipt.

Ord. No

The order number against which this receipt was made.

Quantity

The receipt quantity matched with this invoice.

UOM

The code defining the unit of measure relating to the above quantity.

Order

The order price of this item.

Invoice

The invoice price of this item.

UOM

The code defining the unit of measure in which the order and invoice prices are expressed.

Item

The item received.

Functions:

F21

Invoice text. Display any Accounts Payable invoice text for amendment or deletion.

Further screens of matched receipts may be displayed by using the **Roll** keys.
