Glossary

Glossary

Authoriser

The person responsible for sanctioning a **Manual Requisition**.

Centre

A site within the company which acts as a central supply source by stocking and shipping items to regional **DCs** as required.

DC

A Distribution Centre dealing directly with customers' orders, whilst normally holding minimal stock.

DC Stockroom

An Inventory Stockroom which is located at, and defined to, a **DC**. Often referred to as a 'Branch Warehouse'.

Department

The part of the company for which the requisitioned items are required.

Distribution Order

An internal Sales Order, raised on a **Centre** to satisfy the requirements of a particular **DC**.

Due Date

The date on which the goods are required for delivery.

Error Status

This is used to distinguish between valid and invalid **requisitions**. If the **item**, **supplier**, **purchase officer**, or item/supplier combination does not exist for a particular requisition, it is considered invalid. If all exist, it is a valid requisition. This is used for selection purposes.

Item

The requisitioned item represented by a unique code.

Manual Requisition

A requisition entered directly into this application, i.e. not generated from any external applications.

Model

A method of defining a view of the supply and demand for scheduling purposes within the MPS and MRP applications.

Network

A code representing the DRP Supply Network which identifies the **Centre**, and all **DC's** which the Centre supplies.

Order Class

Specifies if the order is a stocked order, non-stocked order or service order:

1-4 represent stock orders.

5-8 represent non-stock orders (where 6 is a service order.)

Outstanding Requisition

A requisition which has not yet been converted into an order nor deleted.

Purchasing Officer

The person responsible for the purchasing control of particular **items** within this application.

Release Flag

A user-defined code to control the release of **requisitions** into an order.

Requisition

A request for supply of an **item**.

Requisitioner

The person responsible for creating a **Manual Requisition**.

Source

The origin of a requisition.

A requisition may be created in requisition confirmation or be sourced from one of the interfacing applications.

Status

The current stage at which a (Manual) Requisition is to be found. This is interpreted as:

To Be Authorised

Authorised

Rejected

Converted To Order

Deleted

Stockroom

A code representing the Inventory Stockroom for which the **requisitioned item** is required.

Supplier

A code representing the supplier which must be valid in the Supplier Master File, or a valid DRP **Centre** for **items** supplied within the company.

Text

Comments or instructions maintained against a **requisition** which may be transferred onto a Purchase Order.
