Reports

Drinks Requisitioning Reports

Drinks Requisitioning allows the following reports to be produced.

- A report detailing current requisitions, including or excluding those converted to supply orders, and featuring flexible sequencing and selection criteria.
- A listing of all requisitions awaiting authorisation.

These options are available from the Drinks Requisitioning Reports menu.

Note: A listing of the requisitioning authorisation file is also available from the Drinks Requisitioning Maintenance menu.

Requisitions Report

1/DQR

To produce a report detailing the current status of requisitions. The report may be sequenced by supplier, purchase officer, department or requisitioner.

Valid, invalid, or all requisitions may be selected to report.

Requisitions Report Selection Screen

Select the Requisitions Report option.

This enables you to select the requisitions required, and submit the batch program to create the report.

Fields:

All / Outstanding

- 1 - All requisitions.
- 2 - Outstanding requisitions.

Sequence By

- 1 - By Supplier.
- 2 - Purchase Office.
- 3 - Department.
- 4 - Requisitioner.

Release Flag

(Optional.) Enter a value to limit reporting to requisitions with the release flag entered.

Item

(Optional.) Enter a valid Item Code to select only requisitions for this item.

Department

(Optional.) Enter the department of the company for which the requisitioned items are required.

Supplier

(Optional.) Enter a valid Supplier Code to select requisitions only for this supplier. If DRP is installed for this company, a valid Centre Code may be entered to select requisitions for items supplied by this Centre.

Requisitioner

(Optional.) Enter the person responsible for creating a manual requisition.

Purchase Officer

(Optional.) Enter a valid Purchase Officer number to select only requisitions for which he/she is responsible.

Order Class

(Optional.) Enter a valid order class to select only requisitions with this class.

Stockroom

(Optional.) Enter a valid Stockroom code to select only requisitions for this stockroom.

Error Status

1 - To select only requisitions with no error flags set.

2 - To select only requisitions with one or more error flags set. Leave blank to select both valid and invalid requisitions. The default is blank (all).

Report Details

The generated report is in either Purchase Officer, Supplier, Department or Requisitioner sequence, as selected.

Page breaks are created on change of Purchase Officer, Supplier, Department or Requisitioner (or on overflow).

The details printed for each requisition are as follows:

- Purchase Officer.
- Order quantity and unit of measure.
- Item.
- Due date.
- Unit price and unit of measure.
- Value of Requisition.
- Item description.

Total values are given at the following levels:

- Purchase Officer.
- Supplier.
- Department.
- Requisitioner.
- Company.

Once any entered selection criteria have been validated, a batch program is submitted to the job queue to create the report.

No confirmation is required; this is done immediately on pressing **Enter**.

Requisitions to be Authorised

1...
2... 11/DQR

This option submits a batch job to report details for all requisitions which are still to be authorised.
