Glossary

Glossary

Authorisation

The process of approving requests to return goods, which allows the Return Note to be printed for collection, and receiving to take place.

Catchweight

For most businesses, an item is bought, stocked, ordered, discounted, picked, priced and sold by the quantity of the item. This is known as the primary unit of measure and is available to all companies. However, some businesses price and sell by another unit of measure for example, a weight. This is known as the secondary unit of measure. A company which uses catchweight can use both primary and secondary units of measure.

Collection Address

The customer address from where the returned goods are to be collected.

Collection Instructions

Information regarding the pick-up of returned goods, which is printed on the Return Note.

Customer Return Reference

The reference number by which the customer recognises a particular return.

Department

The body of people within the organisation who are responsible for accepting the return.

Goods Inwards

An area of the warehouse/stockroom reserved for the storage of goods immediately after unloading.

Goods Returned Note (GRN)

A document, printed within this application, which provides details of the returned goods received in a particular shipment.

IN Currency

A European currency that is linked to the EURO currency with a fixed exchange rate.

Inspection

An area of the warehouse/stockroom reserved for checking the quality of returned goods.

Item

An Inventory code representing the returned product.

Job Number

A user-defined code, associated with a return, representing a reference number for work to be undertaken on the returned goods.

Original Invoice

The Sales Order Processing reference number for the Invoice associated with the original despatch of goods.

Receipt Date

The actual date when the returned goods were received.

Receipt Point

The warehouse/stockroom area into which the returned goods were received, for example, Goods Inwards, Inspection or Stores.

Receiving Address

The address where the returned goods are to be received, normally a warehouse/stockroom.

Reject Note

A document printed within this application, to accompany goods back to the customer when the return is rejected, (for example, when the product has been damaged by the customer).

Request Date

The date when the request to return goods was received from the customer.

Return Date

The expected date of receipt of returned goods.

Return Number

The reference associated with a customer return by the application.

Returns Officer

The person responsible for the administration or authorisation of the return.

Stockroom

The Inventory Management Stockroom into which the returned goods are to be received.

Stores

A generic term for warehouse or stockroom.

Warehouse

A stockroom which has been defined to the Warehousing application.
