Chapter 3

Enquiries

Requisitioning Enquiries

To enquire on the recommended order lines, i.e. requisitions, generated from Inventory Management, Advanced Order Entry, MPS, MRP or DRP.

The procedure consists of the following:

- Requisitions Enquiry - Selection
- Requisitions Enquiry - Status
- Requisitions Enquiry - Detail
- Requisitions Enquiry - Text

You can also enquire on distribution and purchase orders relating to individual requisitions.

F3=Exit F4=Prompt			

Fields:

All / Outstanding

- 1 - For all requisitions
- 2 - For outstanding requisitions.

Release Flag

If entered, selects only requisitions with the specified release flag assigned to them.

Item

If entered, must be a valid item and only requisitions for this item are selected. The item must exist in the Inventory Item file of Inventory Management.

Supplier

If entered, the supplier must exist on the Supplier Master file within the Accounts Payable application. The only exception to this is if DRP is installed, then the supplier may be a Supply Centre code defined to DRP. If entered, only requisitions for the specified supplier are selected.

Purchase Officer

If entered, the Purchase Officer must exist on the Purchase Officer file in Purchase Management. If it does, only requisitions assigned to this officer are selected.

Order Class

If entered, order class should be in the range 1 to 8 inclusive. If so, only requisitions with the specified order class are selected.

Stockroom

If entered, must be a valid stockroom code as defined to Inventory Management. If specified, only requisitions destined for the entered stockroom are selected.

Requisitioner

If entered, must be a valid Requisitioner user ID in the Authorisation file. If specified, only requisitions manually entered by this Requisitioner will be selected.

Department

If entered, must be defined to at least one Requisitioner in the Authorisation file. If specified, only requisitions required by this Department will be selected.

Press **Enter**. The status screen is displayed with details of requisitions satisfying the selection. If no selections are specified, the default will be all requisitions or all outstanding requisitions for this company.

Requisitions Enquiry Status

This screen enables you to enquire on the status of selected requisitions.

2=Text, 3=Reservation Enquiry			
F3=Exit F12=Previous F13=Details			

Fields:

Select

This field is not named on the screen.

1 - To view and maintain text.

3 - To view Reservation Enquiry. If a requisition was created in Advanced Order Entry for back-to-back or direct delivery processing, then any reservations against the corresponding sales order may be viewed.

Item

Displays a code representing the requisitioned item.

Supplier

This code represents one of the following:

An external supplier

An internal supply centre (as defined to DRP)

Note: Supply centres are in reverse colours on this screen for identification of an internal requisition within the company, rather than one relating to an external supplier.

Press **F13=Details** to display the details screen.

Functions:

F13

Display the details screen.

Requisitions Enquiry Details (F13)

This screen enables you to view requisitions and amend the requisitions text if necessary.

To Be Authorised						Manual		
2=Text, 3=Reservation Enquiry								
F3=Exit F12=Previous F14=Status								

Fields:

Select

This field is not named on the screen.

1 - To view and maintain text.

3 - To view Reservation Enquiry. If a requisition was created in Advanced Order Entry for back-to-back or direct delivery processing, then any reservations against the corresponding sales order may be viewed.

Item

Displays a code representing the requisitioned item.

Supplier

This code represents one of the following:

An external supplier

An internal supply centre (as defined to DRP)

Note: Supply Centres are in reverse colours on this screen for identification of an internal requisition within the company, rather than one relating to an external supplier.

SR

The code assigned to the stockroom for which the requisition has been raised.

Cl

The order class for the requisition.

1 - 4 for stocked orders.

5 - 8 for non-stocked orders (including 6 for services)

Qty / UOM

The recommended or manually specified order quantity expressed in the appropriate unit of measure.

Price / UOM

The price, price unit and discount for the requisition. DRP centrally supplied items are not priced.

Cur

The Currency Code for the supplier.

Rlsf

Release flag value. May be used to select requisitions for amendment, reporting or conversion to orders. This value is totally user-defined and each alphanumeric value may have its own meaning.

Description / Cost Code

Item description for stocked items or the Cost Code for non-stocked items.

Due

The date that delivery of these goods is desired, as calculated by Inventory, Manufacturing, DRP or manually specified.

P Off

The Purchase Officer responsible for this requisition.

Disc

The discount for the requisition.

Source

This field is not named on the screen and displays the order source (Manual, Inventory, Production, DRP or Advanced Order Entry).

Press **Enter**.

Notes:

***1** The description of the requisitioned item is displayed below the Item Code.*

***2** If any of the fields are displayed in reverse image, this indicates that the value of the field is invalid.*

***3** If the Item is displayed in reverse image, then the item is not valid within Inventory Management.*

***4** If the supplier name is displayed in reverse image, then the supplier does not exist in the Supplier Master within the Accounts Payable. This field will also be displayed in reverse image*

if the supply is via a Distribution order.

5 If the Purchase Officer's name is displayed in reverse image, then this code does not exist on the Purchase Officer file in Purchase Management.

Functions:

F14

Display the status screen.

Requisitions Enquiry Text Window (Option 2)

This procedure enables you to maintain purchasing text for the selected requisition. This text may be transferred to Purchase Management when the requisition is converted into a purchase order line.

The unique number assigned to the requisition is displayed in the upper right hand corner of the requisition text screen.

Fields:

Text Lines

Up to 45 characters may be entered on a single line, and up to 99 lines may be used. No validation is otherwise performed. Lines may be left blank between entered lines.

Position To

Specify the line number to be positioned at the top of the window and press Enter.

Insert Lines

Specify the number of blank lines to be inserted and the line number after which to begin insertion. Press **Enter** to insert.

Delete Lines

Specify the number of lines to be deleted and the line number at which to begin deletion. Press **Enter** to delete.

Press **F8=Update** to update the file.

*Note: No amendments, insertions and deletions are actually performed in the text file until the **F8** update key is used.*
