Glossary

Glossary

Attribute

In Sales Analysis, a characteristic of either a customer or an **item**.

Budget

A forecast or estimate expressed in a value, against **attributes** of **items** or customers.

Database

The collection of Sales History information used for enquiries and reports.

Descriptions File

This is a file maintained within Inventory Management which defines a number of parameter codes and their descriptions.

Item

The product code defined to Inventory Management.

Kit

A group of **items** which may be sold as a set. It is maintained in Inventory Management as a single level list.

Library

Means of grouping programs, files on the database.

Ranking

Sequencing by value, for example cost or quantity. Used in Sales Analysis as a means of report sequencing.
