Chapter 1

Processing And Updates

Daily Update

1/SAP

Select Daily Update.

The Daily Update option selects and print reports specified for production at the end of the day.

SAP Z1 - Demonstration Company User SP1 08/09/94 12:37:38

Sales Analysis Processing and Updates Menu

- 1. Daily update
- 2. Weekly update
- 3. Period end update
- 4. Year end update
- 5. Refresh sales history
- 6. Sales history update

Option 1
Search

Daily Update

The option you have chosen submits a batch job to perform the requested task.

Press F8 to confirm this submission or press F3/F12 to return without submission.

F3=Exit F8=Confirm submit F12=Previous

F3=Exit F4=Prompt F6=Messages F12=Previous F16=Change company F18=Prints

Select **F8=Confirm Submit** to submit the batch job that selects and prints day-end reports.

Note: The batch job also creates any reports specified as day end reports not created at this time.

Weekly Update

2/SAP

Select Weekly Update.

Use the Weekly Update option to select and print reports specified for production at the end of the week.

```
SAP                Z1 - Demonstration Company      User SP1          08/09/94
                                                           12:37:44

Option  2
Search

Weekly Update

The option you have chosen submits a
batch job to perform the requested task.

Press F8 to confirm this submission or
press F3/F12 to return without submission.

F3=Exit    F8=Confirm submit    F12=Previous

F3=Exit  F4=Prompt  F6=Messages  F12=Previous  F16=Change company  F18=Prints
```

Note: The option also increments the week number held on the company profile.

Select **F8=Confirm Submit** to submit the batch job that will select and print week-end reports.

Period End Update

3/SAP

Select Period Update.

Use the Period End Update option to select and print reports specified for production at the end of the period.

F3=Exit F4=Prompt F6=Messages F12=Previous F16=Change company F18=Prints			

Period Update

The option you have chosen submits a batch job to perform the requested task.

Press F8 to confirm this submission or press F3/F12 to return without submission.

F3=Exit F8=Confirm submit F12=Previous

Note: The option also increments the period number on the Company Profile. If the job is run at the end of the last period in the year, the period number is re-set to 1 and the year incremented.

Select **F8=Confirm Submit** to submit the batch job that will select and print period-end reports.

Year End Update

4/SAP

Select Yearly Update.

Use the Year End Update option to select and print reports specified for production at the end of the year.

Yearly Update

The option you have chosen submits a batch job to perform the requested task.

Press F8 to confirm this submission or press F3/F12 to return without submission.

F3=Exit F8=Confirm submit F12=Previous

Note: You should run the Year End Update before the last period-end as the period-end increments the year, and re-sets the period to 1 on the company profile.

Select **F8=Confirm Submit** to submit the batch job that will select and print year-end reports.

Refresh Sales History

1...
2...

5/SAP

Select Refresh Sales History.

Use the Refresh Sales History option to selectively change the analysis attributes within the Sales History Database in the event of them changing in Inventory Management or Sales Order Processing. For example, if sales regions are re-organised, use the refresh to perform analysis of sales as though the regions had always had their new arrangement.
