Chapter 1

Maintenance

Introduction To Maintaining US Sales Tax

As this is an advanced application module of System 21, much of the primary data has been set up as part of the base modules, such as Inventory Management and Accounts Receivable. There is, however, additional information which must be maintained in order to use United States Sales Tax.

Maintain Tax Bodies

1... **2...** 1/USM

Use this function to enter tax body codes, associated descriptions and control details, rates and remittance addresses.

Maintain Tax Bodies Selection Screen

Select Maintain Tax Bodies

Use this screen to add or maintain a tax body.

US030	Z1 - Demonstration Company	User SP1	1/09/94 12:02:39
Maintain Tax Bodies			
Tax body ? . ____			
Option _			
1=Tax body details			
2=Rates			
3=Remit to details			
F3=Exit F4=Prompt			

Fields:

Tax Body

Enter the tax body code to maintain or add. This can be up to 4 alphanumeric characters. The prompt option is available for searching for an existing code.

Option

Enter one of the following:

- 1 - To maintain or add tax body details for the current company.
- 2 - To maintain or add the associated tax rates for the tax body.
- 3 - To maintain or add the associated remittance details for the tax body.

Both options 2 and 3 require that you have already maintained the tax body using option 1.

Press **Enter** to display the Maintain Tax Bodies
Details Screen.

Maintain Tax Bodies Details Screen

To display this screen, select a Tax Body and Type and press **Enter** on the Maintain Tax Bodies Selection Screen.

Use this screen to maintain the tax body details.

US035	Z1 - Demonstration Company	User SP1	1/09/94 12:07:52
Maintain Tax Body Details			
Tax body CA			
Description California			
Tax body type ? . 1 State

Zip code From To			
General ledger account . ? . CA			
F4=Prompt F5=Refresh F11=Delete F12=Previous F22=Rates F23=Remit to			

Fields:

Description

Enter up to 30 alphanumeric characters to describe the tax body, for example, the state name. This description appears on any postings to the General Ledger for this tax body.

Tax Body Type

Enter the tax body type associated with this tax body. Tax body types are defined against the major type USTT and are maintained on the Inventory descriptions file.

For more information on defining descriptions codes on the descriptions file, see Descriptions in Inventory Management.

Remit To Tax Body

Enter the tax body code of the tax body that is to receive taxes collected for this tax body. For city or county tax body types, this is usually the state tax body. This tax body must have already been set up or may equal the tax body being maintained.

Payment Frequency

Enter the frequency which taxes collected for this tax body should be sent to the associated remit to tax body as follows:

- 1 - Monthly.
- 2 - Quarterly.
- 3 - Annually.

Zip Code From

Enter the start of the zip code range included in this tax body. This is used in association with the Zip Code To, so that taxable items and charges can be generated for a range of geographical areas.

Zip Code To

Enter the end of the zip code range associated with this tax body.

General Ledger Account

Enter the General Ledger account code any sales tax invoices created for this tax body customers post to.

Functions:

F22

Rates. Tax rates (for current tax body).

F23

Remit to. Remit to details (for current tax body).

Maintain Tax Body Rates Screen (F22)

-  To display this screen, select **F22=Rates** from the Maintain Tax Body Details screen, or
- Select option 2 for an existing tax body on the Maintain Tax Body Selection Screen and press **Enter**.

Use this screen to enter the details for the selected tax body.

Customer Tax Bodies

2/OEM

Select Customers.

Use this function to maintain tax bodies for a customer delivery address, as it is the point of sale that determines which tax rates for which tax bodies are applied.

This function consists of the following screens:

- Customer Details - Select.
- Customer Details - Sales Tax Bodies.

Use this screen to select the customer and the function to be performed.

See the Customer Maintenance Section in Sales Order Processing for information on Statement, Invoice, Delivery Address and Sales Details Maintenance.

CA	California	1			2.500
		-			
		-			
		-			
		-			

F4=Prompt F5=Refresh F11=Delete F12=Previous

Fields:

Tax Body

Enter the tax body code(s) associated with the selected delivery address. You can define up to 5 tax bodies for a customer, dependent on whether the delivery address is subject to state, county, city, or any other type of sales tax.

Apply Tax

Enter one of the following:

- 0 - To have zero tax.
- 1 - To apply tax at the rate defined for the tax body on orders for this customer delivery address.
- Blank - Leave this field blank to use the company profile default.

Exemption Certificate Number

Enter the number of the exemption certificate held by the customer which prevents tax being applied.

Exemption Certificate Date

Enter the date of the exemption certificate.

Vendors Contribution %

Enter the Sales Tax amount to be paid by the vendor. This amount is calculated for each invoice tax body but does not affect the invoice total.

Functions:

F11

Delete. Delete the customer tax details line.

Press **Enter** twice to return to the Customer Select screen.

Item Master

2/INM

Use this function to enter a tax charge type flag, on the item master file, to indicate whether US Sales tax should be applied to a particular item.

Note: See the Application Reference Data - Item Maintenance section of the Inventory Management product guide for all other details on item maintenance.

Item Master Sales Tax Code

Select the Item Master option.

This screen displays the item master maintenance details.
