Chapter 3

Reports

Sales Tax Reports

The United States Sales Tax application updates the Sales Order Processing database with order and invoice details. The full range of Sales Order Processing status and management reports are, therefore, available in that application.

 Select Invoice Tax Remit to Tax Body.

It is intended that this report provide the necessary information for raising payments to the tax body and can be used as an input document for this activity.

```

US500                Z1 - Demonstration Company        User SP1                1/09/94
                                                12:08:23

Invoice tax by Remit to tax body

From Period . . . . . 9401
To Period . . . . . 9410

Monthly Payment Frequency . . 1  0=No. 1=Yes

F3=Exit  F8=Submit

```

Enter one of the following:

0 - Select either quarterly or annual payment frequency.

1 - To include invoices in the report that have sales tax applied and where the tax body is defined as receiving remittance on a monthly basis.

Quarterly Payment Frequency

Enter one of the following:

0 - Select either monthly or annual payment frequency.

1 - To include invoices in the report that have sales tax applied and where the tax body is defined as receiving remittance on a quarterly basis.

Annual Payment Frequency

Enter one of the following:

0 - Select either monthly or quarterly payment frequency.

1 - To include invoices in the report that have sales tax applied and where the tax body is defined as receiving remittance on an annual basis.

Sequence

The sequence of the report is:

- Remit to tax body.
- Payment frequency.
- Tax body.
- Invoice number.

Totals

The totals calculated are:

- Invoice taxable amount.
- Invoice tax amount (remit to amount).

Only orders that have been invoiced are included on the report.
