Chapter 6

Enquires And Reports

Cash Management Enquiries and Reports Introduction

Cash Management provides a flexible enquiry facility which enables you to enter the Cash Management item enquiry screen from almost any point. A separate collection document enquiry option is available.

The options Transaction Type, Reference and Bank Account are dealt with together. This is because, although different information is entered on the initial screens, these options all lead to the same network of Cash Management item enquiry screens. These initial screens are included first, then the series of enquiry screens which are accessed by function key, and finally the collection document screens.

Transaction Reports

Bank Account - Lists all transactions posted to the bank accounts, with opening and closing balances.

Currency By Bank Account - Lists transactions by period, details in prime currency within bank account order.

Items By Bank Reference - Lists transactions in bank reference order.

Scan Report - Lists transactions whose descriptions contain a specified string of characters.

Provisional Cash - Lists provisional cash postings.

Summary Reports

Statement Of Balance - Lists balances in prime and base currencies.

Audit and Control Reports

Daily Movements - Lists all transactions for each bank, with opening and closing balances.

Audit Report - Lists transactions in Cash Management reference order.

Suspended Items - Lists all suspended and provisional cash transactions.

Unpresented Items - Lists transactions which have not been cleared by bank reconciliation.

Bank Statements - Lists bank statements with cleared transactions.

Collection Document Reports

Document - Lists document details.

Due Date - Lists outstanding documents.

Cash Flow - Lists documents within ageing periods.

Reprint Audit - Prints a copy of the audit report.

Write Off Audit - Lists all documents which have been written off from a specified date.

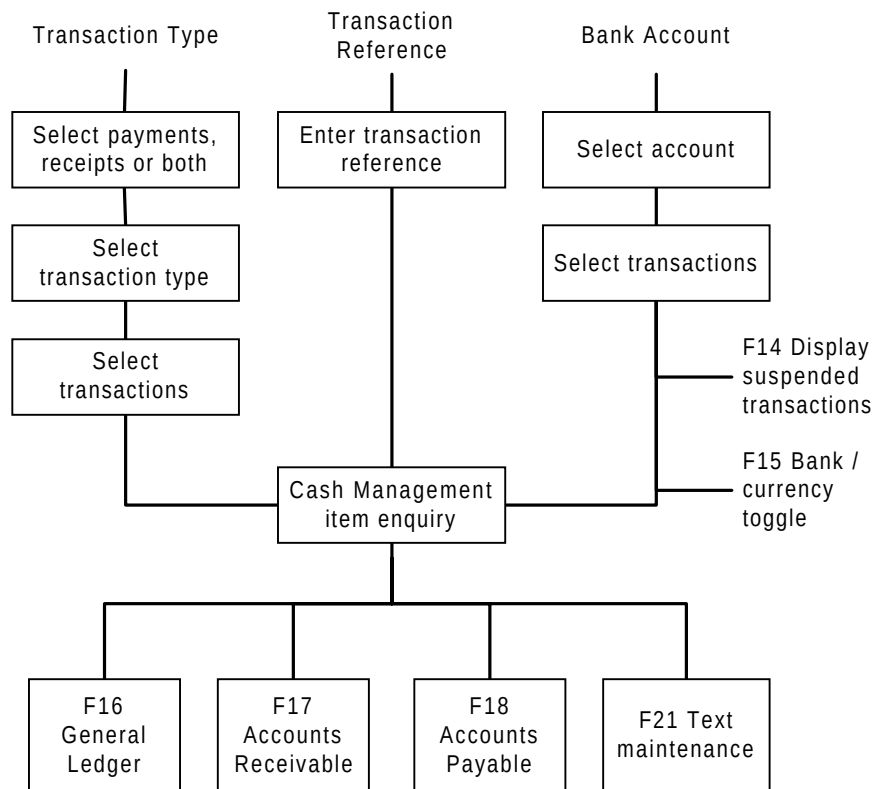

Transaction, Reference and Account Enquiries

This section deals with the three linked Cash Management enquiries, which are:

- Transaction Type Enquiry - This enables you to select your transaction for review from a list of transactions of the same type.
- Reference Enquiry - This enables you to review the transaction if you know its Cash Management reference number.
- Bank Account Enquiry - This enables you to select the transaction for review from a list of transactions in the same account.

Transaction Enquiries Diagram

The structure of this section is clarified by the following diagram; which shows the extent to which the three enquiries (Transaction Type, Reference and Bank Account enquiries) are interrelated:

Transaction Type

1/CSE

Select *Transaction Type* to see the following selection field:

Transaction Type Enquiry - This enables you to select your transaction for review from a list of transactions of the same type.

Fields:

Payments Or Receipts

P - Display a list of payments

R - Display receipts

Blank - Display all items

Press **Enter** to display a list of transaction types, each with a selection field beside it, and a date field:

Fields:

Select Field

1 - To select transaction types.

Date Ranges

1 - To restrict the selection on a date or period range.

If you entered 1 to specify a range of dates or periods, press **Enter** and a new screen will enable you to select the dates or periods for the enquiry.

*Note: Press **Enter** to display a list of transactions of the selected type, each with a selection field beside it:*

Fields:

Select Field

1 - To display details of the transaction.

At this point the enquiry item screen displays.

Bank Account

3/CSE

Select the *Bank Account* option to see a screen listing bank accounts, each with a selection field beside it:

Fields:

Selection Field

- 1 - Display transactions posted to this account.
- 2 - Display the period enquiry for the account.

Fields:

Select Field

- 1 - Display the transactions posted to the account in the selected period.

If you wish to see the period details of the account, enter 2 and press **Enter**, and the details will be displayed. From that screen you can then rejoin the screen you will see if you select with 1, for account details.

Cash Mgmt Item Enquiry Screen

 On the Bank Account Enquiry screen select option 1 and press **Enter**.

This is the main screen within the enquiry system. It displays all the main details of the item, and can lead to the General Ledger, Accounts Payable or Accounts Receivable enquiry systems as applicable.

EITHER enter
Period From.... 9311
To..... 9311

OR
Date From....
To.....

F3=Exit F4=Prompt

Fields:

Bank Account Code

Enter the General Ledger bank account. The field defaults to the account on the company profile, but the report can be limited to a single account.

Period Range

This defaults to the current period, but can be changed. Blank out the fields to select by calendar date.

The 'to' period must not be less than the current period.

Date Range

You can select between calendar dates if period numbers are not selected.

Press **Enter**, then **F8=Submit** to submit a job to produce the report.

Currency by Bank Account Report

12/CSE

This report lists transactions by period, and prints the details in prime (transaction) currency within bank account order. It is used to confirm period values posted to Cash Management and to General Ledger.

Select the *Currency by Bank Account* option.

CS104	E1 - Demonstration Company	USER ED3	21/12/93 12:49:58
Currency by Bank Account			
Bank Account Code . . . ? _____		(Blank for all accounts)	
Period From : _____		(Blank for all periods)	
Period To : _____			
Transaction Source/Type : _____ ?		(Blank for all transactions)	
Currency Code ? _____		(Blank for all currencies)	
F3=Exit F4=Prompt			

Fields:

Bank Account Code

This is the General Ledger bank account. It defaults to blank to print all accounts, but the report can be limited to a single account.

Period Range

Leave blank to print details for all periods for which data is held.

Transaction Source

Valid entries are:

- A - Accounts Payable
- C - Cash Management
- G - General Ledger
- S - Accounts Receivable

Leave blank to select all transactions.

Transaction Type

Enter the transaction type.

Currency Code

Enter a valid currency code, or leave blank for all currencies.

Press **Enter**, then **F8=Submit** to submit a job to produce the report.

Items by Bank Reference Report

13/CSE

For a selected bank account, transactions can be printed in bank reference sequence. The report may be used to resolve a problem or query on the bank account.

Select the Items by Bank Reference option.

CS533	E1 - Demonstration Company	ED3	21/12/93 12:50:39
List Items by Bank Reference			
Bank Account.....? <u>512100</u>

Include Blank References... <u>0</u> (0=No, 1=Yes)			
F3=Exit F4=Prompt F8=Print report			

Fields:

Bank Account

Enter the General Ledger bank account for which the report is to be printed. The report can print details only for a single account.

Payment Type

Enter the payment method for which you want to print the report. This field defaults to ALL, to print all records regardless of payment method.

Bank Reference Range

The range of references (e.g. cheque number) to be printed. Leave blank to include all references.

Include Blank References

1 - Include items with blank references

0 - Exclude items with blank references

Press **F8** to submit a job to produce the report.

Scan Report

14/CSE

This report lists transactions whose description contains the character string specified. This facility could be used to review all cash transactions for a particular supplier or customer.

Select the Scan Report option.

CS501	E1 - Demonstration Company	ED3	21/12/93 12:50:55
Scan Report			
Search field . . . : A001			
From date : _____ (Leave blank for earliest)			
To Date : _____ (Leave blank for latest)			
F3=Exit			

Fields:

Search Field

The report will include all transactions which contain in the transaction description field a word beginning with the search characters.

Date Range

Enter a date range. Both dates must be entered, and are inclusive.

Press **Enter**, then **F8=Submit** to submit a job to produce the report.

Provisional Cash Report

15/CSE

This report prints all provisional cash postings which have not yet been confirmed. It may be used to ensure that such transactions are not left as provisional cash (and therefore unaccounted for) for longer than is necessary.

Select the Provisional Cash option.

CS505	E1 - Demonstration Company	ED3	21/12/93 12:51:24
List Provisional Cash			
Bank Account From ? _____ To . ? _____

43/CSE

This option submits a batch job to print the collection document Cash Flow report. The report prints only those documents which match the selection criteria – excluding unaccepted (status 05) and matured (status 40) documents, and, depending on your selection, including or excluding 'sold' (status 32) documents.

The report is printed separately for each bank account within each company. For each bank account, documents are printed by currency for each customer/supplier.

Select the collection documents reports option
Cash Flow.

0 - Exclude documents sold to bank.

1 - Include documents sold to bank (status 35, 37).

Ageing Periods

Enter the number of days to form each ageing period, from the report date.

Print Summary Report Only

1 - Produce a summary report.

0 - Produce a detailed report.

Press **Enter** to submit a job to produce the report.

Reprint Audit Report

44/CSE

This report reprints the original collection document print details, listing the reference, customer, date printed and user for each document. The following are the available selection fields:

Select the collection documents reports option
Reprint Audit.

Fields:

User ID

Enter the user ID for which the report is to produce details, or leave blank to produce details for all users.

Date Reprinted Range

Enter the date range for which the report is to produce details, or leave blank to produce details for all dates.

Press **F8** to submit a job to produce the report.

Write Off Audit Report

45/CSE

This option produces a list of all documents written off by the selected user between certain dates. The document reference, customer, value (net of any discount), and write-off details (reason code, time etc.) are included.

Select the collection documents reports option
Write Off Audit.
