Chapter 5

Utilities

Introduction to Fixed Assets Utilities

Utilities are available to

- re-build asset summary balances
- recover sessions which have failed.

Access to utility options is usually restricted, and you should ensure that only the system controller or key data processing staff have access.

Session Recovery

This option enables you to recover from sessions that have failed. Such sessions are held at status 1 with a date of 99/99 on the Session Enquiry. Where such sessions exist, you may need to deallocate them within Application Manager.

Select Session Recovery (utility option), and enter a company on the selection screen to see the Session Recovery Utility screen.

FA906P	User FAF8	27/10/95
Session Recovery Utility		11:57:27
Company code..... F8		
Company name..... Fixed Assets V3 Company - F8		
Range of sessions		
Start session number.....	_____	(Leave blank to process ALL sessions)
End session number.....	_____	
F3=Exit F12=Previous		
14-33	SA	ML KS IM II EDN400A PED169S1

Fields:

Start Session Number

Enter the session number at which the recovery process is to start. Leave both fields blank to process all sessions.

End Session Number

Enter the session number at which the recovery process is to end. Leave both fields blank to process all sessions.

Press **Enter**.

- Only incomplete sessions are processed.
- Transactions which do not need posting are completed.
- Transactions needing posting are validated and posted if possible. Invalid transactions appear on the General Ledger posting exception reports (any transaction on this report can be corrected and then posted using the Post Corrected Transactions option.).

Rebuild Asset Summary Balances

Select Rebuild Asset Summary Balances, and enter the company on the selection screen. You will see the Rebuild Asset Summary Balances screen.
