Chapter 3

Reports

AFI Reports

There are three reports available to you, all on the AFI Maintenance menu.

Before running the reports, make sure you have selected the desired application.

The first report lists the journal conditions and posting definitions which have been set up for the selected company.

The second lists the account rule details which exist for an application.

The third lists all template details for the application.

Journals / Postings Definitions Report

1... 21/FIM **2...**

This report lists journal conditions and posting definitions for the specified source company. Live journals, journals under test, or both types of journal can be included on the report.
