Chapter 8

Partita

Partita Enquiry and Processing Options

Partita postings are assigned a unique system-generated partita number composed of the year and item reference.

Note: Partita is switched on in the GL utility option Country-Specific Parameters.

When you allocate partita items, the relevant partitas are consolidated into the partitas with the lowest (normally the earliest) partita reference.

Two menu options are available:

- Partita Enquiries
- Partita Processing (Transaction)

Enquiry

1...
2...

1/ARZ

This option takes you to the same selection screen as the Transaction option, then on to the same display screen. The options then available are different.

Partita Enquiry Screen

Enter 1 against an item to see the item details enquiry screen for that item.

Enter 2 against an item to see the transaction details for that item.

Functions:

F15

Displays the items in reverse (partita reference) order.

Processing (Transaction)

11/ARZ

The Italian partita procedure assigns your postings a unique system-generated partita number composed of the year and item reference.

*Note: Switch Partita on in the GL utility option
Country-Specific Parameters.*

When you allocate partita items, the relevant partitas are consolidated into the partitas with the lowest (normally the earliest) partita reference.

The Transaction option enables you to change the partita reference of any item or group of items. You can change the reference(s) to an existing partita reference, and the item(s) will be moved to the entered partita.

If you remove the last, or only, item from a partita, that partita is deleted.

Select the AR option Partita Transaction.

Partita Amendment Screen

Fields:

Partita Status

0 - See all open partitas.

1 - See all closed partitas (i.e. where balances=0, and all items are closed).

2 - See all partitas.

Source Account ?

Enter the customer whose partitas you wish to see.

Entry is mandatory.

Partita Numbers ?

Enter the range of partita reference numbers you wish to see. The reference numbers must be prefixed by the year. Leave blank to see all partitas included in the selection.

Press **Enter** to see the *Partita Amendment* screen. Partita details display.

Partita Amendment Details Screen

Fields:

1 (Options)

1 - To move a single item. A window will display for you to enter a new or existing partita reference.

2 - To move two or more items. Enter 2 at each total line to be moved. A window will display for you to enter a new or existing partita reference for the mass change.

Functions:

F15 - Reverse. Displays the items in reverse (partita reference) order.

Identify Unmatched Partita Details

21/ARZ

This option will run a batch job to report on partita details which cannot be found in Accounts Receivable or Accounts Payable
