Glossary

Glossary

Acquisition

An acquisition is when a company receives goods. In World Trade the term is used generically for acquisitions and supplies.

Arrival

Arrival is the Intrastat term for goods received in a member state.

Ancillary Value

This value is required on the Intrastat return in certain member states. For arrivals it is the CIF value, for disposals it is the FOB value.

C88

See **SAD**.

CAP

Common Agricultural Policy.

Commodity Code

A unique code applied to a class of goods, also known as the tariff code. The first eight digits are used on the Intrastat report, the remaining digits provide the full information for CAP and exports outside the EC.

Commodity Type

The commodity type identifies the item. For example, if the item is a genuine item or a service.

Consignee

World Trade SPEX term for customer delivery address.

Customs and Excise Price

This is the price used to calculate Intrastat values, if no order or invoice value is available.

Despatch

Despatch is the Intrastat term for goods being sent to another member state.

DGN

Dangerous Goods Note.

Disposal

This is the generic World Trade term for despatches and supplies.

Distance Selling

This is selling to non VAT registered persons in other EC member states.

Distance Selling Threshold

The threshold above which distance sales must be taxed at the destination, rather than origin, rate of VAT. The threshold is set by the authorities of each country.

EC

European Community.

ECSI

Export Cargo Shipping Instructions.

EFTA

European Free Trade Association.

EU

European Union

IATA

International Air Transport Authority.

IB

Intervention Board (for agricultural products). This is also known as IBAP

ICAO

International Civil Aviation Organisation.

IMO

International Maritime Organisation.

Intrastat

Also known as an SSR (Supplementary Statistical Return) or SSD (Supplementary Statistical Declaration). A list of intra EC movement of goods by commodity code.

Intrastat Mask

The method of defining, in World Trade, the elements to report on an Intrastat.

Nature of Transaction

A two character code shown on the Intrastat to show a particular movement of goods is a sale, a lease and so on.

Process Indicator

A flag on the ESL that indicates if goods are moving to or from sub contract work.

Product

World Trade SPEX term for an Inventory Item.

Region

An element on the Intrastat. The region of arrival for acquisitions, the region of despatch for disposals.

SAD

Single Administrative Document. The Customs document used for EC imports and exports.

Second Quantity

A quantity that must be on the Intrastat, as well as kilos, for certain commodity codes.

Shipping Ladder

A quick way of moving around Shipment panels for a particular shipment.

Siret Number

A company number allocated by the French authorities.

SITPRO

A DTI activity, tasked with simplifying international trade.

SSD

See Intrastat.

SSN

Standard Shipment Note.

SSR

See Intrastat.

Supply

A movement of goods on which VAT is payable.

Tariff Code

See Commodity Code.

Terms of Delivery

The trading terms between two companies; for example, EXW, ex-works, the customer is responsible for all transport.

UN

United Nations.

V5

This is the standard export invoice format produced. It is SITPRO aligned to give maximum acceptability to overseas customs administrations.

The V5L and the V5c are associated formats with different uses. The V5L has more space for invoice lines. The V5c is a continuance sheet used, for large shipments, as the following sheet(s) to either a V5 or V5L.

wcqutf

Decimal place headings, weights, cubes, quantities, unit prices, total amounts and statistical value (FOB).
