Chapter 5 Reports

Print Run Details Report

1/DRR

This report outputs the control details of the last processing run for the selected centre or network.

The output consists of run parameters and period details.

Frequency - For each network, and for each centre, included automatically in a processing run. Also, on request as a reprint facility.

Stationery - Standard listing paper.

Print Positions - 132.

New page - Overflow.

Totals - None.

DRP Run Details Report Selection Screen

 Select Print Run Details.

You use this screen to select the Centre or Network for the DRP Run Details Report.

```
DR003P          Z1 - GB Demonstration Company      USER GBJBA1MS   13/03/98
                                      10:42:57
DRP Run Details Report

      Enter Centre....?... █
      OR
      Enter Network...?... _

F3=Exit  F4=Prompt  F8=Print run details report
```

Fields:

Centre

Print details of last DRP run, for the centre specified.

Or

Network

Print details of last DRP run, for the network specified.

 To print the report, select **F8=Print Run Details Report**.

Schedule Report

2/DRR

This report produces a time-phased plan, or schedule, for controlling item stock levels within the selected centre or DC.

It is a printed version of the details which you can view, per item, using the Schedule Enquiries.

Refer to the Section on the DC Schedule Enquiry for detailed content description.

Frequency - As required.

Stationery - Standard listing paper.

Print Positions - 198 (15 characters per inch).

New Page - Overflow, New item, New planner.

Totals - For item.

Request Schedule Report Selection Screen

 Select Schedule Report.

You use this screen to select the centre or DC to produce the schedule report for.

Request Schedule Report

Centre/DC.....?. _

F3=Exit F4=Prompt

Fields:

Centre/DC

Enter a DRP centre or DC.

 Press **Enter** to continue.

Request Schedule Report Details Screen

To display this screen, on the Request Schedule Report Selection Screen, enter a Centre or DC and press **Enter**.

You use this screen to select a range of plan dates and the level of detail required for the report.

DR021P	Z1 - GB Demonstration Company	User GBJBAIMS	13/03/98
Request Schedule Report			10:43:40
Centre..... C1 Birmingham Central Depot			
Date last planned from: <u>27/11/97</u> to: <u>27/11/97</u>			
Print Supply/Demand detail... <u>1</u> (0=No 1=Yes)			
Print Items with no details.. <u>0</u> (0=No 1=Yes)			
F3=Exit F8=Submit report F12=Previous F14=Additional selection			

Fields:

Date Last Planned Range

Specify a range of plan dates to include in the report. Only items last planned within this range of dates show on the report. This defaults to the date of the last planning run for the centre or DC.

Print Supply/Demand Detail

Enter one of the following:

0 - To display totals only.

1 - To include details of the supply and demand orders.

Print Items With No Details

Enter one of the following:

0 - to exclude the codes and description of items with no supply or demand details.

1 - To include codes with no supply or demand details.

Functions:

F14

Additional Selection. Use this function to maintain additional selection and sequencing criteria for the report.

To submit the report generation to batch, select
F8=Submit.

Enter Selection Criteria Window (F14)

To display this window, select **F14=Additional Selection** on the Request Schedule Report Details Screen.

Or, On the Request Planner Action Report Details Screen, select **F14=Additional Selection**.

You use this window to specify additional select and sequencing information for the report.

Enter Selection Criteria				
DC..... C1 Birmingham Central Depot				Report
Item.....?..		to		Sequence
Planner.....?..		to		-
Item Group.....?..		to		-
Value/Usage Class....		to		-
Preferred Supplier.?..		to		-

F4=Prompt F12=Previous

Fields:

Item

Enter a range of items to select for the report.

Planner

Enter a range of DRP planners. This only selects those items defined to DRP planners within this range.

Item Group

Enter a range of inventory minor item groups. This only selects those items defined to inventory minor items groups within this range.

Value/Usage Class

Enter a range of inventory value/usage classes. This only selects those items with value/usage classes within this range.

Preferred Supplier

Enter a range of preferred suppliers. This only selects those items with preferred suppliers within this range. You define preferred suppliers in Item/Stockroom Maintenance in Inventory Management.

Rules for Range Selection

Leave the From and To fields blank to select all items.

If you enter the From field and leave the To field blank, then the To field defaults to the From field.

If you enter a To field, you must enter a From field.

The To field must not be less than the From field.

Sequencing

Select the order in which the selection criteria are to appear on the report. You can select up to three sequencing criteria.

If you do not enter a sequence, the report sequences by item.

To confirm the selection and return to the previous screen, press **Enter**.

Planner Action Report

3/DRR

You use this report to print the suggested actions, resulting from processing runs for the selected centre or DC.

These actions include:

- Reorder suggestions.
- Order amendments - quantities and/or due dates.
- Order cancellations.

Note: Orders are Purchase Orders for Items supplied externally to the company, and Distribution Orders for Items supplied by Centres within the company.

Frequency - As required.

Stationery - Standard listing paper.

Print Positions - 132.

New Page - Overflow, New item, New planner.

Totals - None.

Request Planner Action Report Detail Screen

To display this screen, on the Request Planner Action Report Selection Screen, enter a Centre or DC and press **Enter**.

You use this screen to select a range of dates for planner actions and specify whether to include or exclude overdue orders.

Costing method..... _	1=Standard cost 2=Latest cost		
Factor..... _	1=One thousands 2=Ten thousands 3=Hundred thousands 4=Millions		
F3=Exit F4=Prompt F8=Submit report			

Fields:

Centre/DC

Enter a DRP Centre or DC.

Supply Source

Enter one of the following:

- 1 - To include only those items not supplied by a DRP supply centre.
- 2 - To include only those items supplied from a DRP supply centre to the selected centre or DC.
- 3 - To include both centrally supplied and locally purchased items.

Level Of Detail Required

Enter one of the following:

- 1 - Only display a summary costing. The totals for each included item are summed for the centre or DC.
- 2 - Display individual costing details for each included item.

Costing Method

Enter one of the following:

- 1 - Use the standard cost at the Inventory stockroom assigned to the item at the selected centre or DC.

2 - Use the latest (current) cost of the item at the inventory stockroom assigned to the item at the selected centre or DC.

Factor

Enter one of the following:

- 1 - Display costings in units of one thousand.
- 2 - Display costings in units of ten thousand.
- 3 - Display costings in units of one hundred thousand.
- 4 - Display costings in units of one million.

To submit the report generation job to batch, select **F8=Submit Report**.

Distribution Item Master Report

5/DRR

You use this report to print DRP item master file information, for a range of items within the centre or DC.

Frequency - As required.

Stationery - Standard Listing Paper.

Print Positions - 132.

New Page - Overflow, New Item.

Totals - None.

Distribution Item Master Report Selection Screen

Select Distribution Item Master.

You use this screen to enter the selection details for the Distribution Item Master Report.

Select....?..	_____	_____	
To produce a report showing a range of Items, key in Both fields. To produce a report for a specific Item, key in the From field. To produce a report for all Items, leave Both fields blank.			
F3=Exit F4=Prompt F8=Submit report			

Fields:

Centre/DC

Enter a centre or DC.

Select

Enter a range of item codes defined to this centre or DC.

Enter values in both the From and To fields to only include items within this range.

If you only enter a value in the From field, the report runs for the item specified.

If you leave both fields blank, the report includes all items.

To submit the report generation job to batch, select **F8=Submit Report**.

Supplier Schedule Reports

6/DRR

You use this report to produce a supplier schedule, either weekly or each period or both. You can specify the following:

- A range of Purchase Management suppliers.
- A range of minor item groups.
- A range of DRP supply and distribution centres.
- The start date for the report.
- If the report is produces weekly, periodic or both.
- Whether you sequence the Report by Item, within minor item group, within supplier, or Item within supplier, irrespective of minor item group.

Note: The period report is a summary of the supplier schedule showing only total quantities per item per period.

Note: The weekly report also provides specific details of the purchase orders, requisitions and suggestions behind these total quantities (for the fixed part of the Schedule).

Supplier Schedule Report Selection Screen

Select Supplier Schedule Reports.

You use this screen to enter the selection details for the Supplier Schedule Report.

DR401

Z1 - GB Demonstration Company

USER GBJBA1MS

Supplier Schedule Report - Selection

Supplier.....?..

to

Minor Item Group....?..

to

Centre/DC.....?..

to

Start Date.....

13/03/98

Weekly/Period Report... 1

(1=Weekly, 2=Period, 3=Both).

Report Sequencing..... 1

(1=Minor Item Group, 2=Item).

F3=Exit

F4=Prompt

F8=Submit

Fields:

Supplier

Enter a range of suppliers. These do not need to be valid codes, the system selects the next or previous valid code.

Note: Supplier details only print on the report if you have entered supplier schedule details for that supplier in the DRP Supplier Schedule Maintenance option.

Minor Item Group

Enter a range of minor item Groups. These do not need to be valid codes, the system selects the next or previous valid code instead.

DRP Centre/DC

Enter a range of DRP Centres or Dcs. These do not need to be valid codes, the system selects the next or previous valid code instead.

Rules for Range Selection

Leave the From and To fields blank to select all items.

If you enter the From field and leave the To field blank, then the To field defaults to the From field.

If you enter a To field, you must enter a From field.

The To field must not be less than the From field.

Start Date For Report

Specify the date to show supplier schedule details from on the report. This defaults to the Monday prior to the current system date. On the weekly report, any supply due before the start date appears in the Past Due Date column. The Period Report does not show supply due prior to the report start date.

You must ensure that you define the default DRP Calendar for the company for all the timeperiods which are to appear on the report.

Note: Please note that the period report can range over three calendar years.

Weekly / Period Report

Enter one of the following:

- 1 - To produce a weekly report.
- 2 - To produce a period report.
- 3 - To produce both weekly and period reports.

Report Sequencing

Enter one of the following:

- 1 - To sequence the report by item, within minor item group, within supplier. There is a page break when there is an overflow, change of minor item group, and change of supplier. The report uses the formats defined at minor item group level. When items do not have a defined minor item group or supplier/minor item group combinations, the report uses supplier-level formats.
- 2 - To sequence the report by item within supplier. There is a page break when there is an overflow and change of supplier. The system ignores the minor item group and the report uses the format specified in the supplier definition within DRP supplier schedule maintenance.

To submit the report for printing, select
F8=Submit.
