Chapter 3

Enquiries

Types Of Enquiry

Enquiries can be grouped into one of four categories:

- Outstanding Order Searches.
- Order Details.
- Sources of Supply.
- Financial.

This section covers the procedures which control these enquiry functions.

Enquiry By Item

1/STPME

This procedure enables you to establish the current status with regard to outstanding orders of a stock item.

Orders By Product Selection Screen

Select Item from the Orders area of the Enquiry menu.

This screen enables you to select the stock item to be enquired upon.

```
PM112          ST - JBA System Test Company  USER GBJBARW2  27/10/95
Orders By Product
Product...?..  █
F3=Exit  F4=Prompt
05-17  SF  MW  KS  IM  II  KENB20A  PET178S2
```

Fields:

Product

Enter a valid product, or use the standard search facility.

Press **Enter**, the Header screen is displayed.

Orders By Product Header Screen

This screen enables you to display the current status of all outstanding order lines for the selected item. Detailed information may be selected for any displayed order.

Fields:

Product

The Item selected, together with its description.

Class

Item Class for the item.

UOM

The Stock Unit of Measure for the item.

Standard Cost

The standard cost of the item per stock UOM.

The above details are retrieved from the Inventory Item Master (or the Purchase Order Management Item Specification where Inventory Management is not in use).

For each order line displayed for the item, the following is output. The lines are displayed in Order Date sequence.

Supplier

The supplier for this order.

Order No

Purchase Order Number.

Tip: If there is an *, Text exists on the order.

Order Date

The date that the order was placed.

Order Quantity

The original order quantity.

Promised Date

The date that delivery of the goods is due.

O/S Quantity

The quantity yet to be delivered.

Flag

The Confirmation Flag value as entered during Order entry/Amendment.

Typ

The type of schedule:

S - Scheduled Order

B - Blanket Order

Blank - Non-scheduled Order

Supplier Ref

The Supplier's Reference number or code for this order, as entered at Order Amendment line.

All quantities are shown in Stock Unit of Measure.

The following details may be entered:

Item

The current item may be overwritten or prompted on, to select a new item for enquiry.

Select

This field is untitled on screen. Against each line enter:

1 - To display details of this whole order. This is achieved by displaying the Order Summary screen (refer to Enquiry By Order).

2 - To display Internal Order Text for the item (refer to Enquiry By Order for details of this screen).

Enquiry By Supplier

2/STPME

This enquiry enables you to establish the current position with regard to orders placed with a particular supplier.

All orders may be selected, or only orders still outstanding.

Orders By Supplier Selection Screen

Select By Supplier from the Orders area of the Enquiry menu.

This screen enables you to select the supplier to be enquired upon.

```

```

Fields:

Supplier

Enter a valid supplier, or perform the supplier name search.

Orders

- 1 - To show all orders for the selected supplier.
- 2 - To show only orders with an outstanding quantity for the selected supplier.

Press **Enter**, the Orders By Supplier detail screen is then displayed.

Orders By Supplier Detail Screen

This screen displays the current status of orders for a selected supplier. See Enquiry by Item for screen detail.

Detailed information may be selected for any displayed order. All orders, or outstanding orders only, will be displayed depending on selection made on Orders By Supplier Screen 1.

Fields:

Supplier

The Supplier Code from Orders By Supplier Selection Screen.

All/Outstanding

Selection from Orders By Supplier Selection Screen.

Phone, Name

The telephone number and name of the supplier from the Supplier Master File.

Currency Code

This is displayed from Supplier Master File, if it is not your base currency.

For each displayed order the following details are displayed.

Order Number

The Purchase Order Number.

Tip: A flashing * indicates that Internal Order Text exists for the order.

Adr Code

Despatch address code for the order.

Order Date

The order placement date.

Supplier Ref

The suppliers reference number or code for this order.

Ship Code

The code describing how the goods on this order are to be shipped. This is assigned in Order Entry/Amendment.

Cls

The order classification assigned to this order.

Classes 1 - 4 are Stock Orders, 5 - 8 are non-stock orders.

Typ

The schedule type for this order:

S for Scheduled Order

B for Blanket Order

Blank for non-scheduled, i.e. normal line order.

Job Number, Department

Job Number and Department are displayed only if they were specified in Order Entry/Amendment.

The following may be entered:

Supplier

The current supplier may be changed, or prompted on, to select a new supplier for enquiry.

Select

This field is untitled on screen. Against each line enter:

1 - Display the full details of the order.

2 - Display the Internal Order text, if any, for the order.

Tip: Refer to Enquiry By Order for further details of subsequent screens.

Enquiry By Order

3/STPME

This option is used to display all details for a Specific Order Number. This may be accessed by entry of an order from this procedure, or from the other order enquiries, e.g. orders by item, orders by supplier, etc.

All order lines are displayed, with the ability to view text, status or receipts for each order line. Also, any Internal or External order text can be displayed.

Order Summary Screen 1

Select By Order in the Order area of the Enquiry menu.

This screen enables you to select the order to be enquired upon.

```

Fields:

Order

The selected order number from Order Summary Screen 1.

Supplier

The Supplier Code and name for this order.

Date

The order placement date.

Phone

The supplier's telephone number.

Purch Officer

The code and name of the Purchasing Officer responsible for this order.

Ref

The Supplier's Order reference or acknowledgement number for this order.

Class

The description of the class of this order.

Delivery Instruction Set Code

This identifies the set of delivery instructions assigned to this order.

For each line (or each scheduled delivery for a schedule type order), the following details are displayed:

Line

The order Line Number.

Product

The stock item or the suppliers item reference for non-stock items.

Cost Code

The Cost Code for a non-stock order item, as entered on the order line. For a stocked item this is assigned from the items or item specification file.

Ordered

The original order quantity.

Received

The quantity received to date.

Outstanding

The quantity outstanding, i.e. not yet received.

Invoiced

The quantity matched to date with invoices.

UOM

The code defining the unit of measure in which the above quantities are expressed.

Price

The price per UOM, in the suppliers currency, for this item.

Due Date

The date this line or schedule quantity is due to be received.

The first line of any Order Line text is also shown.

Use the Page Up /Page Down keys to scroll through all lines on the order.

The following details may be entered:

Order

A new order may be selected from this screen by overtyping the Order Number.

Select

This field is untitled on screen. In the selection column against any line, enter:

- 1 - Display Order Line Text screen.
- 2 - Display Order Line Status screen.
- 3 - Display Line Receipts screen.
- 4 - Display attached sales orders screen.
- 5 - Display order line additional details screen.
- 6 - Display associated container details screen.

7 - Display landed costs screen.

8 - Display colour/size matrix screen.

A - Display the ordered quantity in matrix format

B - Display the receipt quantity in matrix format.

C - Display the outstanding quantity in matrix format.

D - Display the invoiced quantity in matrix format.

E - Prices, this displays the purchase price for the SKU. Prices are only displayed for the SKUs ordered.

The literal 'Multi' is displayed on the order line if the item is priced at SKU level. This indicates that prices differ at SKU level.

Enquiry By Cost Code

4/STPME

This option is used to display all outstanding orders which contain items with the selected Cost Code. At order entry time, the cost code will default to the General Ledger account code held in Inventory style/product file.

Orders By Cost Code Screen 1

Select By Cost Code from the Orders area of the Enquiry menu.

This screen enables you to select a cost code for your enquiry.

```

PM124          ST - JBA System Test Company      User GBJBARW2  27/10/95
                                                    14:08:52
Orders By Cost Code

Cost code.. _____

F3=Exit
05-14  SF      MW      KS      IM      II  KENB20A  PET178S2

```

Fields:

Cost Code

Enter a valid Cost Code.

Press **Enter**, the detail screen is then displayed

Orders By Cost Code Screen 2

This screen is displayed when you press **Enter** on the initial screen and shows all outstanding orders for the selected Cost Code.

Fields:

Supplier

The supplier against which the order was placed.

Order No

The number assigned to this order.

Order Date

The order placement date.

Order Quantity

The original order quantity for this order line.

Promise Date

The date this delivery is expected.

O/S Quantity

The quantity yet to be delivered.

Typ

The type of order:

S - Schedule Order.

B - Blanket order.

Blank - Line order, that is non-scheduled.

Flg

The confirmation flag value maintained in Order Entry/Amendment.

Supplier Ref

The supplier's order reference or acknowledgement number for this order.

The following details may be entered:

Cost Code

The selected cost code may be amended by overtyping.

Select

This field is untitled on screen. In the selection column against an order, enter:

1 - To display the Order Summary for the selected order (refer to Enquiry by Order for details).

2 - To display the Internal Order Text (if any) for the selected order.

Enquiry By Job Number

5/STPME

This option is used to establish the current position with regard to orders placed with a selected Job Number.

Enquiry By Job Number Select Screen

Select By Job Number on the Enquiry menu.

This screen enables you to select the job number on which to base the enquiry.

```
PM125          ST - JBA System Test Company   User GBJBARW2   27/10/95

Orders By Job Number
Job Number.. _____

F3=Exit
05-15  SF      MW      KS      IM      II  KENB20A  PET178S2
```

Fields:

Job Number

Enter the Job Number. On entering a Job Number a check is made, and if no orders are found with this job number an appropriate error message is displayed at the foot of the screen.

Press **Enter**, the detail screen is then displayed.

Enquiry By Job Number Detail Screen

The screen is displayed when you press **Enter** on the initial screen. It shows all outstanding order lines for the selected Job Number.

Fields:

Job Number

The selected Job Number.

Supplier

The supplier against whom the order line was raised.

Order No

The number assigned to this order.

Item

The Item ordered.

Ord Date

The order placement date.

Order Qty

The original order quantity.

UOM

The code defining the stock unit of measure for the item.

Type

The type of order:

S - Schedule

B - Blanket

Blank - Line Order (i.e. non-scheduling)

Due Date

The date this delivery is due to be delivered.

O/S Qty

The quantity outstanding, i.e. not yet received.

The following details may be entered:

Job Number

A new job number may be specified by overtyping the displayed type.

Select

This field is untitled on screen. In the selection column against an order, enter:

1 - To select the order summary for that order.

2 - To select Internal Order Text.

See Enquiry By Order for screen details.

Enquiry By Supplier Item Reference

6/STPME

This procedure enables you to establish the current status of orders for a selected Suppliers Item Reference (i.e. the code by which the supplier identifies an item).

Orders By Supplier Product Reference

Screen 1

Select By Supplier Reference on the Orders area of the Enquiry menu.

This screen enables you to enter a valid Supplier Item Reference.

```
PM120          ST - JBA System Test Company      User GBJBARW2  27/10/95
                                                    14:15:59

Fields:

Supplier Product Reference

Enter a valid Supplier item reference. On entering an item reference, a check is made to ascertain if there are any outstanding orders for this reference. If not, a relevant error message is displayed at the foot of the screen.

Press **Enter**, the detail screen is displayed.

Orders By Supplier Product Reference Screen 2

This screen is displayed when you press **Enter** on the initial screen and shows the details of the enquiry.

Fields:

Supplier Item Reference

From Orders By Supplier Product Reference Screen 1.

Supplier

The supplier against whom this order was raised.

Order Number

The number assigned to the order.

Item

The Item ordered.

Ord Date

Order date. The order placement date.

Ord Qty

Order quantity. The original order quantity.

Due Date

The date that delivery of these goods is due.

O/S Qty

Outstanding quantity. The quantity yet to be delivered.

UOM

The code defining the stocking unit of measure for this item.

Typ

The type of Order:

S - Schedule Order.

B - Blanket Order.

Blank - Line order, i.e. non-scheduled.

Flg

The order confirmation flag, updated in Order Amendment.

The following details may be entered:

Supplier Item Reference

A new supplier item reference may be specified for enquiry by overtyping the displayed one.

Select

This field is untitled on screen. In the selection column against an order, enter:

1 - To select the order summary for that order.

2 - To select Internal Order Text.

Tip: See Enquiry By Order for screen details.

Enquiry By Purchase Officer

7/STPME

This procedure enables you to establish the current position with regard to orders placed by a selected Purchase Officer.

Orders By Purchase Officer Screen 1

Select By Purchase Officer on the Enquiries menu.

This screen enables you to enter a valid Purchase Officer Number, or select one from a prompt list.

```

Where Bought Enquiry

11/STPME

This procedure displays a list of suppliers who have supplied a selected item. It highlights the current cheapest supplier for the quantity of the selected item which you require. For any displayed supplier, a list of all receipts of the item from the selected supplier can be shown.

Fields:

Enter a valid Item Code, or select one from the item search.

Summary/Detail

- 1 - For a list of suppliers for this item to be displayed
- 2 - For a full receipts history for all suppliers of this item.

Select option 1 to display the Suppliers screen.

Select option 2 to display the Receipts History screen.

Product Where Bought Screen 2

This screen is displayed when you press **Enter** on the initial screen and shows the supplier for the selected item.

```

```

Fields:

Product

The selected item and its description.

Level

The Summary/Details view.

Quantity

The required quantity from Product Where Bought Screen 1.

Product Class

The Class Code and description to which the selected item is assigned.

Alternative Product

Another item which may be used as an alternative to the selected item.

Purchasing UOM

The code defining the units in which the item is purchased.

For each supplier of the item, the following details are shown:

Supplier

The Supplier Code.

Name

The name of supplier.

Supplier Product Ref

The supplier's item reference for the selected item.

Current Price

The current price for the selected item from this supplier. This is per purchasing unit of measure and expressed in the supplier's currency.

C C

Currency code of the supplier if different from the base currency.

Discount

The percentage discount given by this supplier for the selected item.

Last Change

The date of the last price change.

Lead Time

The lead time in days for the selected item when ordered from this supplier.

A flashing * is displayed against the supplier(s) with the cheapest price. In calculating the cheapest supplier both discount and any currency are taken into account. A flashing * is displayed against a supplier if item/supplier text exists.

Select

This field is untitled on screen. Against each line enter:

- 1 - To display item/supplier text.
- 2 - To display the Receipts History screen for this supplier only.

Item

Enter a new item or use prompt to search and select an item.

Summary/Detail

The current selection may be overwritten, to re-display this summary screen for a different item, or to display the Receipts History detail screen (the quantity field must be blank for this).

Product Where Bought Screen 3

This screen is displayed when you press **Enter** on the second screen and provides a list of all receipts of a selected item, or all receipts of a selected item from a selected supplier, depending on previous selections.

The list contains stocked items only.

Fields:

Product

The Item and its description.

Alt Product

Another item which may be used as an alternative to the selected item.

Stock UOM

The code and description defining the units in which the item is stocked.

Supplier

The Supplier Code and name are displayed at the top of the screen if a single supplier was selected.

For each receipt of the item, the following details are shown:

Supplier

The supplier of the item (this is displayed for each receipt only if receipts from all suppliers were selected).

Order

The order number against which this receipt was made.

GRN No

The Goods Receipt Number assigned to this receipt.

Date

The date on which the receipt was made.

Quantity

The quantity received, expressed in stocking units of measure.

If Invoice Matching has taken place for this receipt then the following are displayed:

Invoice Price

The price paid for the item on this occasion. Expressed in stocking units of measure.

Invoice

The number against which the receipt has been matched. (The Invoice Log reference if Purchase Ledger is installed.)

Further screens of receipts may be displayed by using the Page up/Page Down keys.

What Bought Enquiry

12/STPME

This option is used to display a list of items supplied by a selected supplier. Either stock or non-stock items may be displayed. For any selected item, item/supplier text or receipts history may be requested for display.

Supplier What Bought Screen

Select the What Bought option on the Enquiry menu.

This screen enables you to select the supplier to enquire upon, and the type of enquiry you wish to make.

```
PM115          ST - JBA System Test Company    User GBJBARW2    27/10/95

```

Fields:

Supplier

Enter a valid supplier, or perform a name search.

Enquiry Type

- 1 - Displays details of each stock item supplied by the selected supplier.
- 2 - Displays receipt details of all non-stocked orders for the selected supplier.

Press **Enter** to display the appropriate screen.

Supplier What Bought Screen 2

This screen is displayed if 1 is selected on the initial screen. It displays the stocked items supplied by the selected supplier.

Fields:

Supplier

The name of the selected supplier.

Enquiry Type

The type of enquiry selected, i.e. stock or non-stock.

Phone

The telephone number of the selected supplier.

For each item supplied by the selected supplier, the following is displayed:

Item

The item bought from the supplier.

A flashing * is displayed against an item for which item/supplier text exists.

Supplier Item Ref

The supplier's reference for the item.

Lead Time

The lead time in days for this item when supplied by the selected supplier.

Price

The current price for this item when supplied from the selected supplier, per Purchase Unit of Measure in the suppliers currency.

Disc

The percentage discount given on this item by the supplier.

UOM

The code defining the Purchase unit of measure for the item.

Price Chg

The date of the last price change.

The following details may be entered on this screen:

Supplier

The Supplier Code may be overtyped or re-selected via the search facility.

Enquiry Type

This may also be re-specified by overtyping.

- 1** - To display Item/Supplier text (if any).
- 2** - To display Receipts History for this Item/Supplier combination.

Supplier What Bought Screen 3

This displays a history of receipts from the selected supplier, including non-stocked items only. It is displayed when a 2 is selected on the initial screen.

Fields:

Supplier

The name of the selected supplier. The Currency Code is also displayed where appropriate.

Tel

The telephone number of supplier.

For each non-stock receipt against the selected supplier, the following is displayed:

Supplier Item Ref

The supplier's reference used to identify the item.

Order

The order number against which this receipt was made.

GRN No

The Goods Receipt Number assigned to this receipt.

Date

The date on which receipt was made.

Quantity

The quantity received, expressed in order units of measure.

UOM

The units of measure in which the quantity is expressed.

Invoice

The invoice number against which this receipt has been matched (if matching has taken place).

Further screens of receipts may be displayed by using the Page Up/Down keys.

Invoice Enquiry

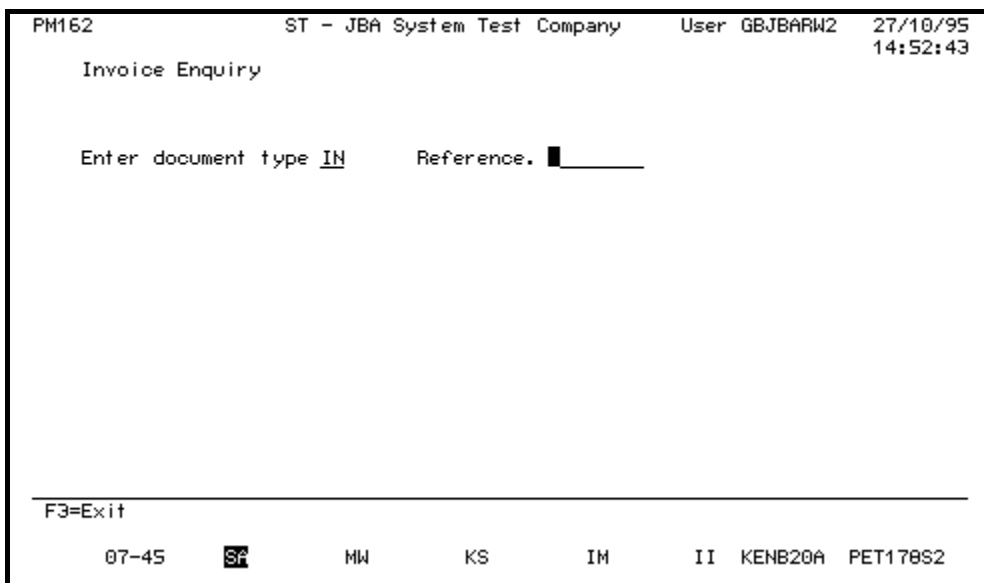

13/STPME

This procedure displays details of all receipts matched against a specified Invoice Reference Number.

Invoice Enquiry Screen 1

 Select Invoice from the Enquiries menu.

This screen enables you to select the invoice you wish to enquire upon.

Landed Costs Enquiry			
GRN No..... _____			
Or			
Item.....?.. _____			
Receipt Date.. _____			
F3=Exit F4=Prompt			
05-17 SF MW KS IM II KENB20A PET178S2			

Fields:

GRN No

To display details of an individual goods received note, enter the number. Must be a valid entry.

OR

Item

Enter a valid style or product number.

Receipt Date

Enter a valid date.

If just the product number is entered then all purchase orders (and landed cost details) are displayed for that product. If a receipt date was also entered then only purchase orders that match the receipt date, and product, will be displayed.

Press **Enter** to validate and display Landed Costs Enquiry Screen 2.

Landed Costs Enquiry Screen 2

Press **Enter** on the initial screen to show this screen which displays the detail relevant to the options you have taken on the selection screen.
