Chapter 4

Operational Enquiries

Introduction To Operational Enquiries

You can use Housekeeping's operational enquiries to enquire about the following:

- Libraries
- Folders
- Media
- Deletion Requests
- Deletion Audit
- Libraries Total Size History.

In addition to performing management information tasks, you can also use these enquiries to initiate various functions elsewhere in the system. For example, you can initiate the archiving of a library from the User Libraries enquiry.

User Libraries

Select option 1 from within Operational Enquiries.

The screen displays all the libraries defined to Housekeeping which are owned by the chosen user. This defaults to the current user's libraries.

Tip: Select **F4** to display the libraries owned by another user.

HK120		Housekeeping				System: STUDB30A

								More...	
F3=Exit F5=Refresh									

Fields:

Library

The library name.

Date Last Changed

The date on which the library was last changed.

Date Last Checked

The date on which the library was last checked.

Date Last Saved To Media

The date on which the library was last saved to off-line media.

Last Saved Days Ago

The number of days since the last save.

Save Freq.

The number of days between each save. A value of 0 or 999 indicated a library which is never to be saved to off-line media.

Note: A flashing asterisk () next to this field indicates that this library is overdue for a save.*

Library Size

The library size at the date last checked.

Af

This displays the current archive flag. This shows Y when an archive is pending.

Sf

A 1 in this column indicates that this library is to be force saved tonight.

Option

Enter:

1 - To enquire on library details.

2 - To maintain library details. See the Libraries section in the Save to Media and the Libraries section in the Execute Day-End Functions chapter for full details of this function.

3 - To force the library to be saved tonight or by the next overnight routine. See the Libraries section in the Execute Day-End Functions chapter and the Archiving Libraries section in the Save To Media chapter for full details of this function.

4 To archive the library. See Archiving Libraries section in the Save To Media chapter for full details of this function.

Enquire On Library Details Screen

Enter 1 against a library.

HK121 Housekeeping System: ST UDB30A	
Enquire on Library Details	
Library IPGAMP3	
Text Application Manager Program Library	
Further text	
Owner PEARSONC	
Library Type D	Library Contents Code . . . P
Re-organise Files (1/0) 1	Compression Required (1/0) 1
Force Save (1/0) 1	Save frequency (days) . . . 1
Off-Site Save Group	Expiry Date 99/99 /99
Application Code	Release level
Application Source (J/O/U) . . .	Environment
F3=Exit F5=Dsp Ct1 F6=Size History F12=Previous	

Tip: See section Manage Definitions - Libraries in the Definitions chapter for full details about this screen.

Functions:

F5

To display Save Details.

F6

To display Size History.

Folders

To display all folders owned by a single user select option 2 from within Operational Enquiries and press **Enter**.

*Note: This defaults to the current user's folders.
If you wish to view the folders owned by another user enter the command:
DSPMYFLRUSER(uuuuuuuuuu)*

The screen lists all the folders defined to Housekeeping which are owned by the chosen user.

HK270

Housekeeping

System: STUDB 30A

Display User Folders

User PEARSONC

Type options, and press ENTER

1=Enquiry, 2=Amend, 3=Single Force Save

0 Folder

	Int.Name	Save Freq	Date last saved to Save File	Date last saved to Media	Over-due	Force Save	Single Force Save
1	PEARSONC/1 FL#0000109	2	1/07/91	2/07/91 11:04:48		N	

F3=Exit

Bottom

This screen highlights the external folder name and internal/system reference, as well as the latest save details. The flashing asterisk (*) indicates those folders which are overdue for a save.

The Force Save column indicates whether a folder is to be force saved. If a force save has been requested a Y is displayed in this column.

Fields:

Option

1 - To enquire on folder details.

2 - To maintain folder details. See Folders section in the Definition chapter for full details of this function

3 - To force the folder to be saved by the next overnight routine. See Folders section the Execute Day-End Functions chapter.

Enter 1.

Enquire On Folder Details

This screen displays the details for the folder.

HK260	Housekeeping	System: ST UDB30 A
Enquire on Folder Details		
Folder PEARSONC/1		
Internal / System name FL#0000109		
Folder Description. . Nick Pearsons Office Documents		
Owner PEARSONC		
Save frequency (days) 2		
Force Save N		
F3=Exit F5=Display Control Information F12=Previous		

Functions:

F5

To display save details.

Media

To enquire upon active off-line storage media and the libraries and folders which they contain select option 3 from Operational enquiries and press **Enter**.

```
HK130                               Housekeeping                               System: STUDB30A
Display Media

Media Type  1      (1=Cartridge, 2=Diskette, 3=Tape)
Volume ID   _____
Location    _____

F3=Exit
```

Fields:

Media Type

Enter the media type to enquire on:

- 1 - Cartridge
- 2 - Diskette
- 3 - Tape.

Volume ID

For a specific media volume enter the ID Omit this to display all the volumes for a media type.

Location

Enter the location of the media volume.

Note: You do not need to enter all of the parameters. For example, if you wish to enquire upon all cartridges then simply enter 1 in media type.

When you have made your selections press **Enter**.

Display Media Screen

Enter 1 against the volume required and press **Enter**.

Once a single media volume has been selected the following screen will be displayed listing all the libraries which it contains.

HK130		Housekeeping		System: STUDB30A	
Display Media					
Media Type	CARTRIDGE	Volume ID	MB0004	Location	ST52
Type options > and press ENTER					
1=Display details					
0 Library	Text	Active Messages			
- FIXSEND	IPG fix transmission library				
- IPGAGX3S	IPX Fix Library				
- IPGAMD3	Application Manager Dspf				
- IPGAMF3	Application Manager Files				
- IPGAMP3	Application Manager Program				
- IPGAMS3	Application Manager Source				
- IPGAMX3	Application Manager Fix Lib				
- IPGCFX3S	Common Functions				
- IPGHKD3	Housekeeping Display Files				
- IPGHKF3	Housekeeping Data Library				
- IPGHKP3	Housekeeping Programs				
- IPGHKS3	Housekeeping Source Library				
- IPGHKX3	Housekeeping Fix Library				
					More...
F3=Exit F12=Previous					

This shows the library name and description, plus library existence details. If this library save is the latest one recorded by Housekeeping then under the Active heading will be shown *Yes. Enter 1 against a library to display individual details. See Libraries section in the Definitions chapter and User Libraries section for information about a library's details.

Deletion Requests

Select option 4 from Operational Enquiries to display those libraries for which there is an outstanding deletion request.

HK400	Housekeeping				System: ST UDB30 A	
Display Library Deletion Requests						
Library	Deletion Requestor	From Terminal	On Date	At Time	Security	
NYTEST	BRIGHTN	VRTDSP03	20/05/91	12:55:45	Save NO	
						Bottom
F3=Exit						

The screen displays the library to be deleted, who requested the deletion, from which terminal, the date and time of the request, and whether a security save was made before the deletion.

All libraries shown will be deleted by the next overnight routine, see Libraries section in Execute Day-End Functions.

Deletion Audit

To display details of deletion requests select option 5 from the main menu.

Housekeeping will retain a complete history of library deletion requests.

```

HK450                               Housekeeping                               System: STUDB30A
Display the Library Deletions Audit Trail
Position list to

```

Library	Deletion Requestor	From Terminal	On Date	At Time	Save	Action
TEST01	HOLDHA GP	VRTDSP01	8/03/91	14:22:42	NO	Delete Requested
	HOLDHA GP	VRTDSP01	8/03/91	15:06:08	NO	Delete Cancelled
DEMOLIB	BRIGHT N	SYSMGR01	11/03/91	11:14:52	NO	Delete Requested
	BRIGHT N	SYSMGR01	11/03/91	19:46:10	NO	Delete Successful

```

Bottom.
F3=Exit  F4=Re-Position

```

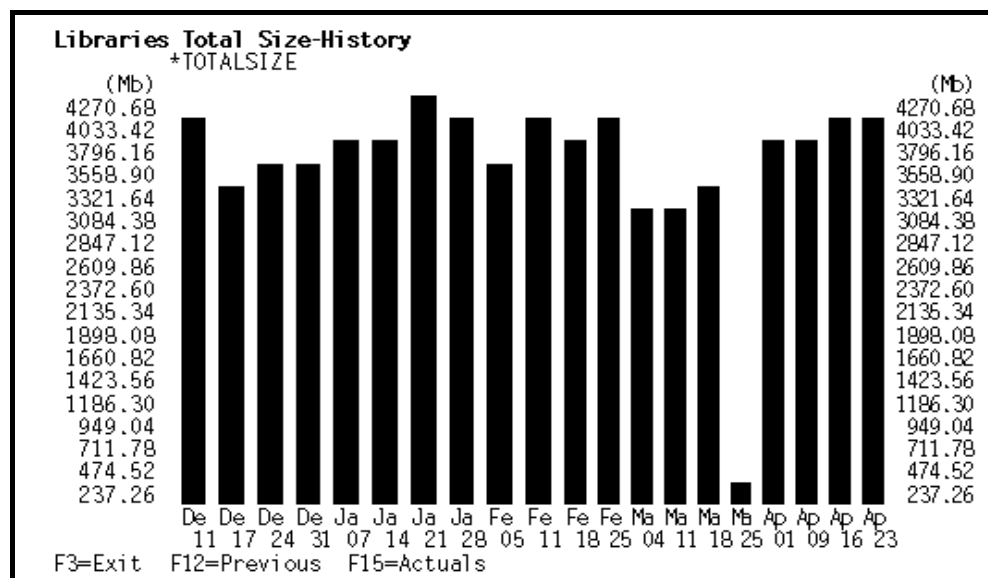

This list is in alphabetical sequence of library name. A history is kept of deletion requests, successful deletions and unsuccessful deletion attempts.

Library deletion may fail because:

- 1 - It was previously deleted by means external to Housekeeping. For example, a user may have entered the IBM AS/400 command DLTLIB and thus Housekeeping would have no knowledge of this deletion.
- 2 - There are database relations outside the library, for example logical files in other libraries over physical files in this library.
- 3 - The Housekeeping routine does not have the authority to delete the library.

Libraries Total Size History

This option provides a bar-chart showing, chronologically, the size of all libraries defined to Housekeeping.

The bar-chart will be re-built whenever you select the Re-size Libraries function, see Re-size Libraries section.

Select **F15** to display a list of the size history.
