## Chapter 7

### Restore From Media

## Libraries

Select option 1 within Restore From Media and press **Enter**.

Use this function to restore libraries previously saved to media.

HK810 House keeping System: STUDB30A

Manage Library Restores

Library \_\_\_\_\_

Note: If you make an entry in the 'Library Name' field and use F4, then scanning will start from that point.

F3=Exit F4=Browse

### Fields:

#### Library

Enter the name of the library you wish to restore.

Select a library to restore.

## Manage Library Restores Screen

This screen displays all of the saves to media known to Housekeeping. The latest save is displayed at the top of the list.

Bottom

F3=Exit
F12=Previous

### Fields:

#### Opt

Enter 1 alongside the media from which you want to restore this particular library.

Press **Enter** and enter the device to use. This defaults from Housekeeping's Control Information (see Control Information section).

Load the media required and then press **Enter** to perform the restore.

# Housekeeping Files

Select option 2 within Restore From Media and press **Enter**.

In the event of a restore being required you should:

1. Restore the Housekeeping libraries from the last known save, as listed on the save audit reports.
2. Run the restore Housekeeping files routine.
3. Consult Housekeeping as to the last save of all other libraries, and restore them.

HK995 Housekeeping System: STUDB 30A

Restore Housekeeping Files

You have selected the option to Restore the Housekeeping Data Files from off-line storage Media.

The Files will be restored to temporary copies, and the Data then transferred into the Housekeeping system's Files.

**NOTE:** Any Data currently residing in the Housekeeping Data Files will be lost.

Type details, press Enter.

The name of the Media Device to be used \_\_\_\_\_

The Volume ID of the Media to be used . \_\_\_\_\_

F3=Exit

## Fields:

### Media Device

Enter the name of the media device used for the restore.

### Volume Id

Enter the volume ID of the media which contains the latest save of the Housekeeping files.

*Note: The Housekeeping files are saved separately (see Housekeeping Files section).*
