## Chapter 2

### Technical Reference Menus

# Main Menu Bar

The main menu bar has six drop-down menu options:

- File Menu
- Edit Menu
- View Menu
- Inquiry Menu
- Window Menu
- Help Menu.

# File Menu

## Menu options:

### Open Database

You can change the current database. There are three choices: Generic, Drinks and Style. Look at the Title Bar to see which one is currently installed. Look for the databases either in C:\Program Files\JBASys21\Data\ or on the installation CD.

### Close Window

Closes the active window.

### Exit

Closes down the database and then closes Technical Reference.

## Edit Menu

### **Menu option:**

#### **Copy**

Copies details from the database to your clipboard. This copies the details from the element where the cursor is located.

# View menu

## **Menu options:**

### **Status Bar**

Click on or off to enable or disable the Status Bar.

### **Position To**

Displays the Position To Window.

### **Find**

Displays the Find Window.

### **Filter**

Available for a future release. You will be able to tailor your view of the database according to your selection criteria.

### **Sort**

Displays the Sort Window so you can sort the database by one of the columns.

# Inquiry Menu

## **Menu options:**

The availability of these options varies depending on your current inquiry.

### **Objects**

Displays the Objects Window. This option is disabled when the window is displayed.

### **Menu Options**

Displays the Menu Options Window. This option is disabled when the window is displayed.

### **View Where Used**

Displays the Where Used Window.

### **Programs Used**

Displays the Programs Used By Window.

### **Database**

Displays the Database Window.

### **Files Used**

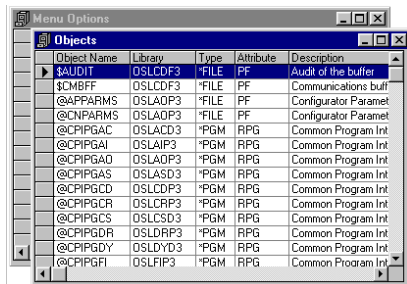

Displays the Files Used By Window.

# Window Menu

## Menu options:

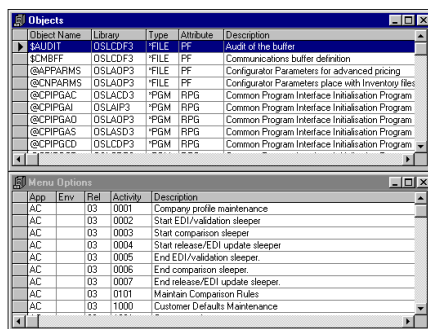

### Cascade

You can arrange the windows on the display area like this.

### Tile Horizontally

You can arrange the windows on the display area like this.

### Arrange Icons

The Arrange Icons option only works when the windows have been minimised and moved around the display area. You can line them up on the display area like this.

*Note: Below the Arrange Icons options is a list of currently open windows.*

# Help Menu

## **Menu Options:**

### **Technical Reference Help**

Displays the online help to assist you in working with System 21 Technical Reference.

### **About Technical Reference**

Displays Technical Reference version information.

# Technical Reference Pop Up Menus

There are two different context sensitive menus in Technical Reference which you can display using the right mouse button:

- When you click with the right mouse button in any of the grid boxes, you display the Data Pop Up Menu.
- When you click with the right mouse button on the column titles in any of the grid boxes, you display the Titles Pop Up Menu.
